This RCA RCR414BHE Remote Codes List for the Platinum Pro Universal Remote Control will help you to easily program all of your devices. The RCA RCR414BHE Platinum Pro 4-Device Universal Remote Control works with all of the major brands and devices. This remote will even work with the latest streaming players by using a separate key. This Universal Remote Control will operate up to 4 devices such as: TV's Streaming Players Satellite or Cable Box DVD or Blu-Ray Players RCA RCR414BHE Platinum Pro Universal Remote Control Instruction Manual and User's Guide This Instruction Manual will walk you through how to program your devices by using the codes from the Code List that is also included below. You will need this guide to program your remote to its full potential. It will allow you to set up your remote to use 4 different devices from all the major brands. Access the RCA RCR414BHE User's Guide and Instruction Manual Here: RCA RCR414BHE Platinum Pro Universal Remote Control Code List Using this code list you can find the correct code for each of your devices. This will allow you to program 4 different types and brands of equipment. This code list will be needed along with the User's Manual to correctly program each of your devices. Find the RCA RCR414BHE Code List Here: Click Here for More RCA User Manuals and Code Lists Losing or damaging your original TV remote can be incredibly frustrating. Thankfully, a universal remote control offers a powerful and convenient solution to manage all your entertainment devices from a single unit. When talking about universal remotes, RCA universal remote controls are quite popular in the market. Today, we will be taking a look at RCA Universal Remote Codes and detailed, step-by-step instructions on how to program your RCA remote for any device. RCA Universal Remotes are designed to control multiple devices, including TV, DVD, VCR, Cable, Satellite, and other devices. Some models are even capable of controlling up to eight devices. Quick Answer: How to Program Your RCA Universal Remote with Auto-Search Feature Turn on your TV manually. Hold the TV button + Power button together until the red light stays on. Press Play every 5 seconds until the TV turns off. Press Reverse every 2 seconds until the TV turns back on. Press Stop to save the code. Tip: If this method doesn't work, refer to the "How to Program RCA Universal Remote with Codes" section below. Insignia 1415 LG 1415 RTC 2360 Tivax 2185 Zenith 1415 Universal remotes come with support for more than one device. So you might also be looking to program the remote for other electronic devices like DVDs, Consoles, and more. Also if you want a printable code list, then you can download a printable file from the link below. Download Printable RCA Remote Codes Now that you have access to RCA remote codes, its time for the program guide. You can follow the without codes method if you didn't find your device on the list. No matter what RCA Universal Remote Control you have, the steps to program the remote to your TV will be the same. The same can be said regardless of the TV brand that you plan to use the RCA Universal Remote with. Before moving to the steps, note down the codes you will need for your particular TV brand. We have listed all the control codes below. Or you can check the manual received with your Remote. Step 1: Insert batteries in your RCA remote. Also, power up your TV. Step 2: Press and hold the TV key on your remote while pointing the remote towards the TV. Or press and hold another device key if you want to connect another device like Cable, DVD, etc. Step 3: Release the device key once the power key on the remote light up. Step 4: While the Power button is lit, enter the pairing code for your device from the list. Step 5: When you enter the correct code, Power key light will turn off. Once programmed, test the remote functions with your device. If the power button led blinks twice, this means you have entered the incorrect code. So try the second code and other codes as well until the power button turns off. Step 1: Power On your TV. Point the Remote towards TV/device for the whole process. Step 2: Press and hold the TV key. Hold the specific device key if you are programming it for another device (like DVD, VCR). Step 3: While holding TV key, also press and hold the Power key. The power key or LED indicator will turn on. Now you can release both keys. Step 4: While pointing the remote to TV, Press the Play key and wait for 5 seconds. If TV/device turns off move to next step. If not, press the Play key again and wait 5 seconds. Repeat the process until your device turns off. Step 5: Once your TV turns off, press the Reverse key and wait for at least 2 seconds. If your TV/device turns on, move to next step. If not, press the Reverse key and repeat the process. Step 6: When your TV/device turns back On, immediately press the Stop key to save the code. Now your RCA remote is programmed and you can test the remote. Check if the basic functions such as power volume, channel, menu, and source buttons are working perfectly or not. Step 1: Make sure your device is turned on and you are aiming the remote towards the device. Press and hold the Code Search key on your Remote until the indicator light turns on. Step 2: Now press and release the device key, e.g. TV key if you are programming for your TV. Step 3: Enter the code manually. You can check the codes from the list above or from the manual you have received with your Remote. Step 4: After entering the correct code, the indicator light will turn off. Now you can test your Remote with your device. If the indicator light flashes twice after entering a code, this means the code is incorrect. Then you can try other codes. Step 1: Turn on your TV or other device that you want to program with RCA Remote. Point the Remote towards the device for the process. Step 2: Press and hold the Code Search Key until the LED turns on. Step 3: Press and release the Device key, for example TV key if you are programming for TV. The indicator light will blink once and stay lit. Step 4: Now press and release the Power key until your device turn off. You might need to press the key up to 200 times. Step 5: When your device turn off, immediately press the Enter key (within 4 seconds) to save the code and the indicator LED will turn off. There are various RCA universal remote models to choose from. Here are currently available RCA Universal Remote Controls. 2-Device and 3-Device RCA Remote Controllers RCR313BE RCR3273E RCR503BE RCRH02BE RCRN03BE 4-Device and 5-Device RCA Remote Controllers RCR414BHE RCR504BE RCRBB04GBE RCRBB05BHE RCRBB05BHZ RCRN04GBE RCRPST04BE RCRPST05SE RCRTBL04BE 6-Device and 8-Devices RCA Remote Controllers RCR6473E RCRN06GBE RCRPST06GBE RCRTBL06BE This concludes the guide on how you can pair and program an RCA universal Remote with any TV brand that you own. With such remote codes, you can make use of a universal remote easily. So, the next time you lose a TV remote, always be assured that the RCA Remote is there to save you.
