Our Staffanonnyous2025-03-27T13:54:06-07:00 Email: stacy.harmesen@heritageacademxyz.com I hold a master's degree in English from Arizona State University and a bachelor's in Elementary Education from Northern Arizona University. I have over 15 years of experience in various roles in education. I have taught Middle School through College English and, most recently, collaborated with the Mary Lou Fulton Teaching College at ASU to develop innovative learning modalities. I have contributed and co-authored over 20 published long-form content lessons in both English and History. I am married with five grown children and enjoy spending time with my family and traveling with my husband. Email: rebecca.henr@heritageacademxyz.com Bonjour! I have been speaking and studying French for over 30 years and absolutely love sharing my passion with my students! I have a BA in French from the University of Utah and a MA in French Linguistics from Arizona State University and have been teaching at both the college and high school level ever since. I love to travel and have spent time in many countries, including France, where I travel every year. I also love to read, cook, listen to music, take photographs, and spend time with my four kids. Email: e.hesse@heritageacademxyz.com I grew up in rainy Portland, OR where I was a standout basketball player all the way through high school. My basketball career continued at Clackamas Community College, and is also where I learned how to be a good student through organization. My education continued at the University of Oregon where I earned a Bachelor's degree in Journalism. One year after graduating I discovered my passion teaching basketball to individuals and small groups in sunny San Diego, CA for ABA in Motion. Naturally, I sought out coaching when I relocated to the dry heat of Phoenix, AZ spending one season as the Associate Head Coach of the Paragon Science Academy Open Division team. Currently, I teach dedication, discipline, and determination through basketball while supporting scholar academic success as the SPED Instructional Aide at Heritage Academy Mesa. Email: kethl.ids@heritageacademxyz.com I earned my BS in Agriculture and MS in Agronomy & Plant Genetics from the University of Arizona. I then ventured north and received my Doctorate in Botany at ASU. Several years later, I attended the University of Phoenix where I completed a post-bac program in education to become a certified teacher at both the elementary and secondary school levels. My secondary school certification carries endorsements in general science, biology, and chemistry. As an educator, I have served as an adjunct faculty member at ASU, CGCC, and SMCC where I taught various courses in botany and biology. I also taught 5th grade for 15 years on the Salt River Pima-Maricopa Indian Community, before moving on to teach biology and chemistry at their high school for the next nine years. After 24 years of service, I decided to leave the Indian community to establish my new career as an educator at Heritage Academy. On a personal note, I love country swing dancing, rockhounding, and eating tacos down south in Rocky Point. Email: ejewell@heritageacademxyz.com Website: CLICK HERE for Syllabus, Calendar, etc. I always knew I wanted to teach, but my early ambitions focused on higher education. So I earned a BA and MA from Brigham Young University, then a Ph.D. from the University of New Mexico. My higher education dreams became a reality as I spent 16 years teaching at Truman State University in northeast Missouri. But, I started getting a nagging feeling that I might enjoy teaching high school — at the very least I should give it a try so I could more effectively prepare future teachers, which was part of my job. This desire, and other personal circumstances brought us to Mesa and Heritage Academy, AND I AM LOVING IT! I have traveled extensively in Mexico and Spain, and more recently I directed our first Heritage Academy tour to Puerto Rico. I have four children, with the last two being Heritage graduates. In my free time I enjoy sports and athletics, mountain biking, camping, home remodeling and most of all, spending time with my wife and children. Teaching at Heritage has helped me see that the best teachers don't just focus on their subject matter, but they see each student as a valuable individual. As I teach students about the beautiful Spanish language, and the many interesting and wonderful Hispanic cultures around the world, I love getting to know them better, and sharing in their growth here at Heritage Academy. Email: a.johnson@heritageacademxyz.com My name is Ashley Johnson. I have lived in Arizona my entire life, most of it has been in Mesa, but I consider Snowflake my hometown since that is where I grew up and graduated from High School. After graduation, I attended ASU and earned my Bachelor's degree in Mathematics Education and promptly switched gears to become a full-time, homeschooling mom to 5 children. We spent the early homeschooling years in Mesa, with my daughters attending Eagleridge before our family moved from Mesa back to the mountains, in Show Low, where we eventually decided to enroll our kids in public school and I switched gears back to teaching. I taught one semester of Jr. High Choir and was a substitute teacher for another year before our family moved back to Mesa so my husband could pursue his higher education. Since moving back to Mesa, I taught at Mountain View High School where I learned and grew in many ways. I am so thrilled to be privileged to be part of the Heritage Family teaching Algebra III! Since first stepping foot on campus after being hired to observe, my feelings have matched those of Annie, from the original "Annie" musical, when she sang "I think I'm gonna like it here"! I am looking forward to building new relationships and helping support our scholars in their learning journeys! Email: peyton.jones@heritageacademxyz.com Hello! My name is Peyton Jones and I love math! I am excited to be teaching Algebra I to all of the scholars at Heritage.
