The HS Code 85452000 refers to carbon brushes that are specifically designed for electrical purposes. These brushes play a crucial role in various electrical devices and equipment, ensuring smooth operation and efficient transfer of electrical current. Carbon brushes are commonly used in a wide range of applications, including electric motors, generators, alternators, and other electrical machinery. They are essential components that facilitate the transfer of electrical current between stationary and rotating parts of these devices. When it comes to trade, the HS Code 85452000 is significant as it helps in classifying and categorizing goods for international transactions. Understanding the HS code is essential for importers, exporters, and customs officials as it provides clear identification of the product being traded.

Bound / MFN Duty Rate The bound / MFN (Most Favored Nation) duty rate for HS Code 85452000 is free. This means that countries are not required to impose any duty or tariff when importing or exporting carbon brushes used for electrical purposes. It promotes free trade and ensures equal treatment for all trading partners. Whenever a country lowers a trade barrier or opens up its market, it must do so for the same goods or services from all its trading partners. This principle of non-discrimination aims to promote fair and equitable trade practices among countries.

Quantity Unit The quantity unit for HS Code 85452000 is kilograms (KG). This unit of measurement is used to quantify the weight of carbon brushes being imported or exported. It helps in determining the quantity and value of the goods during customs clearance and trade statistics.

Special Tariff Preference Programs Under certain special tariff preference programs, imports of carbon brushes under HS Code 85452000 may enjoy duty-free treatment. The following countries and regions offer special rates or exemptions: Australia (Special Rate) Bahrain (Special Rate) Canada (NAFTA - duty-free treatment) Chile (Special Rate) Caribbean Basin Initiative (CBI) Israel (Special Rate - duty-free treatment) Andean Trade Preference Act (ATPA) Jordan (Special Rate) Morocco (Special Rate) Mexico (NAFTA - duty-free treatment) Oman (Special Rate) Dominican Republic-Central American Special Rate (DR-CAFTA) Peru (Special Rate) Singapore (Special Rate) These special tariff preference programs aim to promote economic cooperation, regional integration, and development by providing preferential treatment to certain goods from specific countries or regions.

Importing and Exporting US States HS Code 85452000 allows the importation and exportation of carbon brushes used for electrical purposes to and from various states in the United States. The specific importing and exporting states may vary depending on the trade activities and demand for these products. Carbon brushes are essential components in numerous industries, including automotive, electronics, power generation, and manufacturing. Therefore, it is likely that states with a significant presence of these industries would have higher importing and exporting activities for carbon brushes.

HS Code 85452000 represents carbon brushes used for electrical purposes. It plays a vital role in international trade by facilitating the classification and categorization of these goods. Understanding the HS code, duty rates, and special tariff programs is crucial for importers, exporters, and customs officials to ensure smooth and compliant trade operations.

More on HS code 85452000 HS codes are international classification numbers used to identify products in global trade. For carbon brush, the correct HS code helps determine import duties, speeds up customs clearance, and prevents delays or compliance issues during shipping.

Carbon Brush HS CodeThe structure of HS codes is systematic and hierarchical, allowing for precise classification of goods. Here is a breakdown of its components:**Chapter:** The first two digits represent the chapter. For example, "85" stands for "Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles".**Heading:** The next two digits indicate the heading within the chapter. For example, "8545" refers to "Carbon electrodes, carbon brushes, lamp carbons, battery carbons and other articles of graphite or other carbon, with or without metal, of a kind used for electrical purposes".**Subheading:** The following two digits specify the subheading. For example, "8545.20" refers to "Brushes".**Extension:** The last four digits provide further detail. For example, "8545.20.00.00" is a specific code for "Brushes".Refer to the table above to find the right HS code for carbon brush based on your requirements.

FAQ on Carbon Brush HS Codesels the HS code for carbon brush the same in every country?No, the HS code for carbon brush is not the same in every country. While the first six digits are standardized globally, the last four digits can vary based on national regulations and specific classifications.

What happens if the HS code is incorrect?Incorrect HS codes can lead to shipment delays, fines, and increased scrutiny from customs authorities, potentially resulting in higher costs and legal complications for businesses involved in international trade.

Does the HS code need to be included in shipping and customs documentation?Yes, the HS code must be included in shipping and customs documentation to ensure accurate classification, avoid delays, and comply with international trade regulations. Missing or incorrect codes can result in fines and shipment holds.

Can one product have multiple HS codes?Yes, one product can have multiple HS codes due to variations in product specifications, usage, or national regulations. This can lead to different classifications, affecting tariffs and compliance requirements in international trade.

Use Oway to Ship Pallets for Up to 50% OffOway is a rideshare freight platform that can save you up to 50% compared to traditional freight services. For those shipping carbon brush or other items within the United States, Oway offers cost-effective, fast, and reliable shipping by using empty truck space. Our paper-free system handles all driver coordination, so you won't need to make calls or deal with signatures. Get a quote in 15 seconds and see how much you can save on your next shipment.

Carbon brushes of a kind used for electrical purposes HS code 854520000 refers to 'semiconductor devices.' These goods are typically used in electronic circuits and are essential components in the production of electronic devices such as computers, smartphones, and televisions. The demand for semiconductor devices has increased significantly in recent years due to the growth of the technology industry.
