In My Drive or Shared drives, double-click the file that you want to open. Files created by Google Docs, Sheets, Slides, or Forms open in your browser. Other files open in their regular applications on your computer. Set up sync You can manage how much local storage you use and where your content is located by configuring Drive to stream or mirror your files and folders. Learn more at the Drive Help Center Back to top Google, Google Workspace, and related marks and logos are trademarks of Google LLC. All other company and product names are trademarks of the companieswith which they are associated. To easily manage and share content across all of your devices and the cloud, use Google's desktop sync client: Drive for desktop. If you edit, delete or move a file on the Cloud, the same change happens on your computer and devices, and vice versa. In this way, your files are always up to date and can be accessed from any device. You can use Drive for desktop to: Open files stored on the Cloud directly on your computer. Find and organize your files in your computers file system without using storage space. Sync folders from your computer to Google Drive. When you sync, your files download from the cloud and upload from your computers hard drive. After you sync, your computer's files match those in the cloud. Your files stay up to date and accessible, any change you make applies across devices. Save files and folders for offline use. This includes files from shared drives. Collaborate on Microsoft Office files in real time. If you use Outlook on Windows with a work or school account, send and save files with Microsoft Outlook. Important: Before you start, check that your operating system is compatible with Drive for desktop. Download Drive for desktop: DOWNLOAD FOR WINDOWS Open "GoogleDriveSetup.exe." Follow the on-screen instructions. Tip: If you use a work or school account, you might not be able to use Drive for desktop or your organization might have to install it for you. If you have questions, ask your administrator. On Drive for desktop, at the bottom right, in the system tray, you can find the Drive for desktop menu . Tip: To Show hidden icons, click the arrow. To make it easier to find Drive for desktop when it's closed, you can pin it. To add Drive to the Start menu: In your Start menu, right click Drive Pin to Start. To add Drive to the taskbar: In your Start menu, right click Drive Pin to Taskbar. Important. Before you start, check that your operating system is compatible with Drive for desktop. Download Drive for desktop: DOWNLOAD FOR MAC Open GoogleDrive.dmg. Follow the on-screen instructions. Tip: If you use a work or school account, you might not be able to use Drive for desktop. Your organization must install it for you. If you have questions, ask your administrator. On Drive for desktop, at the top right, in the menu bar, you can find the Drive for desktop menu . To make it easier to find Drive for desktop when it's closed, you can pin it. To add Drive to your Dock: In the Applications folder, drag the Drive app to the left side of the recently used apps separator line. Sign in to Drive for desktop Sync files and folders to Drive for Desktop For this same video with audio descriptions, go to Sync files and folders to Drive for Desktop. When you first open Drive for desktop, you receive a notification Google Drive would like to start syncing. Click OK. On your computer, open Drive for desktop . You can sync files from your computer to Google Drive and backup to Google Photos. On your computer, open Drive for desktop . Click Settings Preferences. On the left, click Folders from your computer. Select an option: Sync with Google Drive: Files you change in the synced folder reflect on Drive. Drive changes reflect on your computer. Synced folders shows under "Computers." Back up Google Photos: Only photos and videos upload. Photos or videos you delete in one place dont delete in another. Edits upload as new images. You can find your photos and videos from any device online or on the Google Photos mobile app. Use Drive for desktop with macOS Sync to Google Drive & Google Photos Important: If you only store photos and videos, we recommend you backup to Google Photos. If you store your files in photos and videos, they upload twice and use more of your Google storage. Network Attached Storage (NAS) only supports backups to Google Photos. Important: If you have multiple Apple Photos libraries, only the System Photo Library syncs to Google Photos. You can sync all Apple Photos libraries in Drive. If you sync an Apple Photos library with Drive, everything syncs. We do not recommend you make changes to these files from another computer or in the cloud as it can corrupt your library. Your System Photo Library is the only library that works with iCloud Photos, Shared Albums, and My Photo Stream. If you only have one photo library, then it's the System Photo Library. Otherwise, the first photo library that you create or open in Photos is your System Photo Library. When you download photos and videos from your iCloud and upload them to Google Photos, it temporarily uses your Hard drive space. Learn more about backing up photos & videos. Access your files when they're synced On your computer, click your name Google Drive . You can find several options based on your Drive usage: My Drive: Contains your own personal files and folders. Shared Drives: Contains files and folders others share with you. Other Computers: Displays files synced from other computers connected to your Google Account. Double click the file you want to open. Files created in Google Docs, Sheets, Slides, or Forms open in your web browser. Other files, like Word docs or .pdf files, open in their default programs on your computer. Tip: If your Drive and "My Drive" folder is empty, you cant find the "Shared Drives" or "Other Computers" views. Customize your Drive for desktop settings Improve your Drive for desktop experience with Advanced Settings. You can: Customize sync preferences. Enable or disable real-time presence with Microsoft Office. Customize Google Photos settings. Customize general settings, such as automatic launch, hotkeys, and proxy settings. Learn how to customize you Drive for desktop settings. Open files & folders offline Search for your Drive files To find your files in Drive, search in Drive for desktop. When you search in Drive for desktop, rather than in Windows Search or macOS Spotlight, it ensures that your search includes all files from the Drive streaming location. On your computer, open Drive for desktop . Click Search . Enter your search terms. Tip: You can use the same advanced searches as in Drive web. Open your file. If the file is on your computer, it opens with the associated application. Otherwise, it opens in Drive web. Tip: To open the search window you can also use the search hotkey combination. Work on MS Outlook & Office files Mirroring My Drive Mirroring and streaming are two ways to sync your files. Folders from your computer can only be mirrored. Shared drives and other computers can only be streamed. My Drive can either be mirrored or streamed. When Drive for desktop is installed, the My Drive folder is streamed. You can update your preferences and choose to mirror or stream My Drive after installation. Learn about streaming and mirroring options with Drive for desktop. Learn how to find and fix errors in Drive for desktop In Drive for desktop, under Activity, a Some errors occurred banner displays. To display the list of errors, you can either: Click the link in the banner. Click Settings Error list. Learn more about how to fix errors. Related resources SearchClear searchClose searchGoogle appsMain menu Next: Buy & use a Play gift cardYou can install apps, games, and digital content on your device from the Google Play Store. Some content is available at no charge, and some you need to buy. You can use apps that you bought on Google Play on any Android device without the need to pay again if each device is signed into the same Google Account. To download an app: Open Google Play. On your Android device, open the Google Play app . On your Computer, go to play.google.com. Search or browse for an app or content. Select an item. Select Install (for no charge items) or the item's price. Tips: To check that an app is reliable, find out what other people say about it. Under the app's title, check the star ratings and the number of downloads. To read individual reviews, scroll to the "Ratings and reviews" section.
