

I'm not a bot

Welcome to Ubbi, where innovative products are designed and created with parents and children in mind. Under the Ubbi name, you will find unique, quality products that are easy to use, helping to simplify parents’ lives while keeping babies as happy and safe as can be. Ubbi is a brand under Pearhead Inc., a Brooklyn-based company launched in 1999 by Tom Sakaguchi and Ken Berlin. In 2007, Tom became a father and couldn’t find a diaper pail that kept the smell locked in when closed. An engineer by trade, he started working with a team of industrial designers and engineers. In 2011, the Ubbi brand was created to launch the first steel diaper pail that offered the convenience and value of using any standard trash bag, a breakthrough in the diaper disposal market. Now a recognized brand worldwide, Ubbi has expanded into other popular categories, continuing to offer a wide range of products for today’s modern parents looking for innovative, stylish, and functional baby essentials. From concept to final creation, the Ubbi team works together every step of the way to bring the best in design and value. The input of every member of the team is taken into account in the development of the Ubbi products, but consumer input is the most important as customer satisfaction is our primary goal. why choose Ubbi?innovative design & easy to useDistinctively engineered with a sleek and contemporary look, each Ubbi product is uniquely designed and created for today’s modern parents looking for innovative, stylish and functional baby and pet essentials. Are you 18 years old or older? Sorry, the content of this store can’t be seen by a younger audience. Come back when you’re older. why choose Ubbi?innovative design & easy to useDistinctively engineered with a sleek and contemporary look, each Ubbi product is uniquely designed and created for today’s modern parents looking for innovative, stylish and functional baby and pet essentials that offer convenience and value. breakthroughthe first steel diaper pailIn 2007, Pearhead Inc.’s co-founder Tom became a father and couldn’t find a diaper pail that kept the smell locked in when closed. What makes the Ubbi diaper pail better at controlling odor than the other diaper disposal systems?The Ubbi diaper pail is the original can of steel. Steel is an odor blocking material, as opposed to plastic which quickly absorbs the smell due to the porous nature of the material. As an additional barrier against odor, the pail is equipped with rubber seals around the rim and sliding lid, making the pail completely airtight. During the design phase of creating our pail, we tested the Ubbi diaper pail with both dirty diapers and smoke to make sure it was airtight - nothing escaped! Does the Ubbi diaper pail require special refills?No! In addition to the odor blocking steel, the Ubbi diaper pail is convenient and provides both time and cost savings since it can be used with any tall (13-gallon) kitchen garbage bag. No need for expensive, hard-to-find, proprietary refills! For additional convenience, we do sell our own branded Ubbi plastic and cloth liner bags, as well. Can I use the Ubbi diaper pail to cloth diaper, as well? The Ubbi diaper pail was designed for disposable diapers, but it can also be used to cloth diaper when used in tandem with a liner. However, to prevent a buildup of condensation, we recommend leaving the sliding lid slightly ajar to create airflow because you don’t want the wet cloth diapers to be locked in an airtight pail. Since cloth diapers are not as smelly as disposable, leaving the lid slightly open shouldn’t create a smell issue and it will prevent potential condensation, mold and maybe even rust. What should I use to clean the Ubbi diaper pail?Nothing - not even water! The Ubbi diaper pail is practically maintenance free which makes it the easiest diaper pail on the market to load, use, empty, and clean. The pail should only be wiped with a dry cloth. Any liquid, including Lysol, bleach, or harsh abrasives, even water, can potentially create condensation that could eventually develop into mold and rust. Since the pail is totally airtight, liquid is to be completely avoided. Can I dissemble my pail to clean it? Do not dissemble any part of your Ubbi diaper pail. The parts are all factory assembled and cannot be manually reassembled. Disassembling your diaper pail will put it out of warranty What if I notice an odor with the Ubbi diaper pail?Unfortunately, given the nature of its content, the Ubbi diaper pail - or any other diaper pail or trash can for that matter - will smell when opened, or on the inside. The difference with the Ubbi diaper pail is that it doesn’t smell when closed as opposed to plastic pails. Plastic acts like a sponge and absorbs the smell which then transpires through the pores and dissipates into the baby’s nursery without even being opened. The Ubbi pail, however, will keep those odors locked inside the pail. Do you have any tips and tricks for the smell inside the Ubbi diaper pail?To ensure your diaper pail smells as little as possible when it’s open, we recommend changing the bag twice a week. Given that you don’t need to buy special refills for the pail, you can afford to change the bag more often. What are the Ubbi diaper pail measurements?23”(H) x 15”(D) x 10.75”(W) 58cm (H) x 38cm (D) x 27cm (W) Can the Ubbi diaper pail be used with adult diapers?There is a high demand for us to adapt our current pail to the adult market, and it is something we have considered and talked about in great length. However, the hole in which the diapers are disposed of is just big enough to fit one tightly rolled up of the largest baby’s pull up diaper or baby’s reusable cloth diapers. We created this opening size specifically to minimize the air disruption when quickly dropping in a diaper. Given that adult diapers are quite a bit bigger, it would require a larger opening, which necessitates the geometry of the pail to be completely reengineered. For this reason, we have decided not to pursue that market for now and focus on what we know best: the juvenile market. What is the warranty on the Ubbi diaper pail?Ubbi has a 3-year promised warranty for a replacement due to a manufacturer defect. Rest assured that we have conducted thorough research on the market and our policy far surpasses our competitors. We are happy to assist any customer in need of a replacement at service@ubbiworld.com. What should I do if I’m experiencing issues with the Ubbi diaper pail?We want to ensure you have a great experience with our diaper pail, and our company. At your earliest convenience, please feel free to email a member of our customer service team at service@ubbiworld.com, or call our Brooklyn HQ at (718)-422-0592 Monday through Friday, 9:30 am - 6:00 pm EST. Due to Post-Covid, the Ubbi team is working remotely from home on Monday, Wednesday, and Friday. Though you can still reach us by phone, email is the best way to contact us right now. How do I clean my bath toys?To prevent bath toys from accumulating mold, we’ve created an array of colorful bath toys that twist open and close and can be cleaned on the top rack of a household dishwasher, making them mold resistant. When you don’t wash them in the dishwasher, to prevent mold from developing, make sure to open them and let them dry out after each use. How do I clean my Ubbi Snack Tweak Container?For convenience and simplicity, the Ubbi snack tweak container can be cleaned on the top-rack of a household dishwasher. Otherwise, it can be handwashed with warm water and dish soap. Is the the Ubbi tweak snack container temperature sensitive?Yes! Please do not place the Ubbi tweak snack container in the microwave or the freezer. We do not recommend using very hot or frozen foods in the tweak, either. What should I do if the rubber guard of the Ubbi tweak snack container is too stiff for my child?The rubber guard is flexible and becomes softer overtime. You can accelerate the process for your child by putting your own hand in and out of the guard several times to soften it up for little hands! Is the Ubbi odor absorbing gel safe?The Ubbi odor absorbing gel has been fully tested by UL and is compliant with the regulations. The material safety data sheet (MSDS) can be accessed here. Ingredients included in the odor absorbing gel are 3,5,5-trimethylhexyl acetate, eucalyptol, linalyl acetate, limonene, kappa-carrageenan. Please navigate here to view the full ingredient list. If you would like visibility into the EU Cosmetic Regulations, refer here. For more information or to obtain a test report, contact service@ubbiworld.com I love Ubbi! What other products do you carry?We are excited to offer a variety of products in different categories to bring the same level of ingenuity, convenience and modern design that parents have come to expect from Ubbi branded products. Recently, we have just launched additional mold-resistant, dishwasher safe bath toys to our growing collection! However, feel free to check out more information about our toilet training, nursery, feeding, on-the-go, and additional items in our bath and diapering collections on www.ubbiworld.com How long does shipping take? Ubbi products are not eligible for express or expedited services. Note that due to the global chain supply and port congestion issues, our orders might take longer than usual to ship out from our warehouse in Los Angeles. We are doing our best to ship within our regular 5-7 business days window, but it might take up to 1-4 business days for your order to arrive via FedEx. Kindly take this potential delay into account when placing your order and accept our most sincere apologies for this unusual situation. Where can I order my Ubbi products to?Ubbi products cannot be shipped to APO or FPO addresses. Ubbi products are not eligible for international shipping and can only be shipped in the contiguous US. Are you 18 years old or older? Sorry, the content of this store can’t be seen by a younger audience. Come back when you’re older. Enter the world of Ubbi, where innovative products are designed and created with parents and children in mind. Under the Ubbi name, you will find unique, quality products that are easy to use, helping to simplify parents’ lives while keeping babies as happy and safe as can be.From concept to final creation, the Ubbi team works together every step of the way to bring the best in design and value. The input of every member is taken into account, but consumer input is the most important as customer satisfaction is our primary goal. Product weight: 5.15 lbs Packaging dimensions:14.8” W x 22.5” H x 10.6” D37.6 cm W x 57.15 cm H x 27 cm D Packaging weight: 7.00 lbs Is my pail replaceable via warranty? Ubbi reserves the right to assess the condition of the product to determine eligibility for a replacement. This may require providing images of the product, along with proof of purchase date. A replacement may be refused if the product is determined to have been treated in a manner not in compliance with our care instructions, damaged as a result of normal wear and tear, or falls outside of our 3-year manufacturer warranty window, which starts on purchase date. For product support and replacements, please email customer service at service@ubbiworld.com. Please be advised that all pails deemed eligible for a replacement will have a \$15 shipping fee at the expense of the customer. 3 products SortFeaturedBest sellingAlphabetically, A-ZAlphabetically, Z-APrice, low to highPrice, high to lowDate, old to newDate, new to old
