Also does anyone know if this is correct for my 2018 Tekna + In case Nissan offer is no longer happening. Thanks in advance Collabro 2007 1.5dci Visia Faded Denim 2011 1.5dci Ntec Magnetic Red 2015 1.5dci Tekna Storm White 2018 1.5dci Tekna+ Vivid Blue gloucester Posts: 5221 Joined: Sun Apr 03, 2016 7:04 am Location: Gloucestershire, England Qashqai Model: Mk.2 Qashqai - J11 (2013-2017) Post by gloucester » Fri Jan 03, 2020 6:27 pm It appears so FREQUENTLY ASKED QUESTIONS ABOUT NISSAN MAPCARE™ PROGRAM AND SINGLE MAP UPDATES I have a Nissan equipped with a Navigation system. Am I eligible to Nissan MapCare™ program? The Nissan MapCare™ program offer is available on the whole Nissan range embedded with NissanConnect (with the exception of 370Z and LCV range except eNV200 and Navara) produced from 1st May 2016 onwards (1st June 2016 for Juke and 1st November 2016 for Navara). Vehicles that are in stock but were produced before 1st May 2016 (1st June 2016 for Juke and 1st November 2016 for Navara) are excluded from this offer. I am not eligible to Nissan MapCare™ program, how can I order a map update ? You are able to pay for a Single Map update and there are 2 options. You can visit our Nissan webstore but you will need to install the map in your navigation. It is an easy operation and procedure is available with each product. You can also order directly to your dealer who can complete the update for you. Can I update the Nissan MapCare™ system by myself? As part of the Nissan MapCare™ program, the update is done by the dealer. First he has to ensure that the vehicle is eligible for the program and will proceed accordingly. The process is completely free of charge. How many times can I get an update for my navigation system with this Nissan MapCare™ program? On average 15% of the roads and point of interests are changing on a yearly base. Usually single map updates are quite expensive, Nissan is taking care of this for you for 4 years. Who will inform me when a new update is available within Nissan MapCare™ program? Your dealer will contact you when the new update is available. Please ensure you are registered in the YOU+Nissan portal (Nissan customer's portal) with all your contact details. It is also possible to proactively ask your dealer if a new update is available for your vehicle. Interesting last point - has anyone actually had a proactive dealer approach? (2015 Nissan Qashqai Tekna DIG-T 1.2 sold 15/6/18) ~ (2018 Suzuki Ignis SZ5 sold 4/5/24) ~ 2024 Volvo EX30 - 2018 Yamaha MT-07 calnorth Posts: 2719 Joined: Mon Feb 11, 2019 2:01 pm Qashqai Model: Mk.2 Qashqai Facelift - J11b (2017-2021) Post by calnorth » Sat Jan 04, 2020 8:45 am Yes they do provide an update and return the original card to you. The original/expired is in a MAPCARE sleeve when returned. However, I made a point of telling the dealer to seek an update when I booked the service. That was noted in comments on my service documents 2 months back. There is a cost mentioned on the service invoice of about £30 but is not applied. Also mentioned as not for resale. I suspect after the 3rd service payment will be required? Mk2 Qashqai Facelift - J11b (2017-and onward) 1.6 Dig-T N-Connecta chrisw99 Posts: 541 Joined: Mon Jul 11, 2016 10:42 am Post by chrisw99 » Wed Jan 15, 2020 11:22 am My v4 card arrived last night from ebay. Was a bit dubious at first at £18.50, but it appears to be genuine. Put it in a PC and compared with v3. v3 had map data Q1 2017, v4 has map data Q1 2018. But it seems to be a big one - I remember going from v2 to v3 and not much changed, but now on v4 all the new roads near me have appeared (including the important one, Manchester Airport Eastern Link rd which I use every day and according to the nav I was just driving through a field). [url] Oct 2014 N-tec+, 1.2 dig-T Set your "favourite region" and your vehicle will check automatically for new map availability. You just need to make sure you have good network connection.To update other regions you just need to connect your in-car navigation system to the Wi-Fi and check if an updated map is available.Once you complete the following procedure, your Nissan will search for new maps every 7 days and let you know when there is a new one ready for you to download. You can reset these settings at any time. Step 1Select 'Info' from your in-car screen. Step 2Then select 'System Information'. And select 'Map Update Settings'.Now simply select a favourite region.Confirm your selection from the pop-up displayed on the screen. If a new map is found, a message will appear.To work this method, you will need to be near an accessible WIFI hotspot. You can also use your smartphone's connection. Simply select 'Info' on your in-car screen, then select 'System Information' and choose 'Map Update'.Select 'Update via Wi-Fi.Select the areas you want to update. If a map is still up to date, the message 'The current map version is the latest available' will be displayed.If a map needs updating, available updates for the areas you select are displayed. Just choose 'Yes' to update. Now you have completed one of the processes above, you should have the latest navigation updates. If you have any problems with this, please call Cars2 Nissan on 01924 362100 or Nissan UK on 03301231231How do I get informed about new map updates?Once a new map update is available, you will receive a pop-up message on the infotainment screen of your car providing your favourite region has been set. Link to the updated page.Can I set my vehicle's infotainment system to the factory settings?To reset your car to factory settings, click on Settings > More Settings > Return All settings to Default Can I use voice assistant on my phone directly from my car?Yes, you just need to enable Siri or Google Assistant in your phone. Make sure these are enabled on your phone settings. You will need to long press on the voice command button on your steering wheel to activate it.What shall I do if Apple CarPlay is not working?If Apple CarPlay is not working, make sure to: use a certified compatible cableactivate Siri from the settings of your iPhoneaccept the pop-up message when you plug your iPhone to USBmake sure the cable you are using is cleanmake sure that your phone cover, if you have one, allows the connector to be fully introducedmake sure your charging port is clean and that no dust is preventing your cable to be pluggedAndroid Auto is not working, what should I do?If your Android Auto doesn't operate, please try to use one of the methods below:Make sure you have downloaded the Android Auto app from the app store if your android is Android 9 or below. (If you have updated an older Android to Android 10, you will also have to download the Android Auto app)Use an official cable compatible with your smartphoneMake sure the cable you are using is cleanMake sure that your phone cover, if you have one, allows the connector to be fully introducedMake sure your charging port is clean and that no dust is preventing your cable to be plugged Are you tired of using outdated maps on your Nissan navigation system? Do you want to save money by not purchasing a new SD card every year? Well, you're in luck because updating your Nissan navigation SD card for free is easier than you think.In this guide, we will walk you through the step-by-step process of updating your Nissan navigation SD card for free. You'll learn how to download the latest maps, transfer them onto your SD card, and insert it back into your Nissan vehicle. Say goodbye to expensive map updates and hello to hassle-free navigation with this simple and cost-effective solution.Update your Nissan Navigation SD Card for FreeNavigating through unfamiliar roads can be a hassle, especially if you're driving a Nissan with an outdated navigation system. Fortunately, updating your Nissan navigation SD card is a straightforward process that you can do on your own. In this article, we'll guide you through the steps on how to update your Nissan navigation SD card for free.Why You Should Update Your Nissan Navigation SD CardYour Nissan's navigation system relies on data stored on an SD card to provide you with accurate directions and up-to-date maps. Without regular updates, your navigation system may direct you to the wrong locations or suggest longer routes. Updating your Nissan navigation SD card ensures that you have access to the latest maps, points of interest and traffic information. It also helps to improve the system's overall performance and reliability.To update your Nissan navigation SD card, follow the steps below:Step 1: Check Your Nissan's CompatibilityBefore you start the update process, you need to confirm whether your Nissan's navigation system is compatible with the latest map updates. To do this, check the model number of your navigation system and compare it with the list of compatible systems provided by Nissan.Step 2: Download the Latest Map UpdatesOnce you've confirmed the compatibility of your Nissan's navigation system, you can download the latest map updates from the Nissan Navigation portal. You'll need to create an account and provide your Nissan's VIN number and navigation system information to access the downloads.See also Do Xiratraf Boots Run True To Size?Step 3: Prepare Your SD CardTo update your Nissan navigation SD card, you need to have a compatible SD card with enough storage space. Make sure to back up any data on your SD card before you begin the update process. You should also format the SD card to ensure that it's ready to receive the new map updates.Step 4: Install the Map UpdatesOnce you've downloaded the latest map updates and prepared your SD card, you can install the updates on your Nissan's navigation system. Insert the SD card into your Nissan's SD card slot and follow the on-screen instructions to complete the installation process. The update may take several minutes to complete, depending on the size of the map data.Step 5: Verify the UpdateAfter the installation process is complete, verify that the new map updates are working correctly. Test the navigation system by inputting different locations and checking the accuracy of the directions. You should also check the points of interest and traffic data to ensure that they're up to date.Benefits of Updating Your Nissan Navigation SD CardUpdating your Nissan navigation SD card comes with several benefits. First, you'll have access to the latest maps, which means that you'll be able to navigate through unfamiliar areas with ease. You'll also have access to up-to-date points of interest and traffic information, which can help you avoid traffic delays and find new places to explore.Another benefit of updating your Nissan navigation SD card is that it can improve the system's overall performance and reliability. Outdated maps can cause the navigation system to work slower or provide inaccurate directions. Updating the maps can help to optimize the system's performance and ensure that it's working at its best.Nissan Navigation SD Card Update vs. Dealer UpdateWhile you can update your Nissan navigation SD card for free, some dealerships may offer to update the system for you at a cost. However, updating your SD card on your own can save you money and time, as you won't have to wait for a dealership appointment or pay for labor costs. Additionally, updating the SD card on your own allows you to ensure that the update is done correctly and that the latest maps are installed.See also How To Clean Yeti Backpack Cooler?ConclusionUpdating your Nissan navigation SD card is a simple process that you can do on your own. By following the steps outlined above, you can ensure that your Nissan's navigation system is up to date and working at its best. With the latest maps and up-to-date points of interest and traffic information, you'll be able to navigate through unfamiliar areas with ease and confidence.Frequently Asked QuestionsHere are some of the most common questions about updating Nissan navigation SD card for free.Can I update my Nissan navigation SD card for free?Yes, you can update your Nissan navigation SD card for free.However, it depends on the model and year of your Nissan vehicle.
