Steve Jobs was a brilliant entrepreneur and the co-founder of Apple. He changed the way we think about technology and design. His famous quotes inspire many people around the world. These words offer wisdom about creativity, hard work, and following your passion. They remind us to think differently and to believe in ourselves. Today, we will look
at some of Steve Jobs most memorable quotes. Each one carries a powerful message that can motivate you to success and help you stay focused on what truly matters. Steve Jobs Quotes Your time is limited, dont waste it living
someone elses life. Steve JobsWe all have unique paths to follow, and this quote encourages us to embrace our individuality. Its much too easy to drift through life, following what others expect of us. Instead, lets focus on what our heart yearns for and pursue that passion, as time is a precious resource. By being true to our passions, we can lead more
satisfying and productive lives. This saying motivates us to reflect on our choices. Are we truly pursuing our dreams, or are we just conforming? Remember, every moment wasted can never be regained. So, lets step into our own shoes and create a life thats fulfilling and meaningful. Innovation distinguishes between a leader and a follower. Steve
JobsInnovation is key to standing out in any field, and this quote serves as a reminder for us all to be original thinkers. Its important to embrace creativity and develop new ideas rather than simply adhering to existing notions. When we approach challenges with a fresh perspective, we may uncover opportunities that others might overlook. This
message encourages us to take the initiative and explore our creativity. By being innovative, we can become leaders in our respective fields rather than just following the crowd. Lets strive to think outside the box and take bold steps toward our goals. The people who are crazy enough to think they can change the world are the ones who do. Steve
JobsThis bold statement inspires us to embrace our ambition and resist self-doubt. Every great change in our world started with someone who dared to dream big. When we believe in ourselves and our ideas, we can push the boundaries of whats possible. It is essential for us to take risks and challenge the status quo. By being crazy enough, we
harness our unique talents to achieve remarkable things. Lets be those fearless individuals ready to make a difference in the world. Design is not just what it looks like and feels like. Design is how it works. Steve JobsDesign goes beyond appearances; its about functionality and user experience. This quote guides us to appreciate the importance of
usability in any project we undertake. A great design must not only catch the eye but also serve its purpose effectively. When we focus on the practical aspects of design, we ensure our creations are more valuable and user-friendly. Lets always keep in mind that the best design must not only catch the eye but also serve its purpose effectively. When we focus on the practical aspects of design, we ensure our creations are more valuable and user-friendly.
what separates the successful entrepreneurs from the non-successful ones is pure perseverance. Steve JobsPerseverance is a key component of success, and this quote reminds us that staying committed is crucial in achieving our goals. There will be challenges and setbacks in our journey, but its our ability to push through that often determines the
outcome. Lets cultivate a mindset of resilience, knowing that every obstacle presents an opportunity to learn and grow. By staying persistent, we increase our chances of turning our dreams into reality. The best way to predict the future is to create it. Steve JobsThis inspiring quote empowers us to take control of our destinies rather than waiting for
things to happen. Instead of living passively, we have the ability to shape our futures by proactively pursuing our passions and working diligently toward our goals. By creating the life we want, we align our actions with our vision. Lets remember that we each hold the power to craft our own futures through our choices and efforts. Its time to initiate
the changes we wish to see. If you havent found it yet, keep looking. Dont settle. Steve JobsSettling for less is not an option, and this quote encourages us to continue searching for what truly fulfills us. It serves as a reminder that we should be persistent in
our search for happiness and purpose. Lets be patient and trust the process because the journey toward finding our true calling is just as important as the destination. Be a yardstick of quality. Some people arent used to an environment where excellence is expected. Steve JobsThis quote calls us to set high standards for ourselves and our work.
Embracing quality not only enhances our output but also influences those around us. By cultivating an environment that values excellence, we inspire others to raise their game as well. Lets challenge ourselves to always strive for the best and create an atmosphere where greatness is the norm. By doing so, we uplift each other and contribute to a
culture of achievement. Don't let the noise of others opinions drown out your own inner voice. Steve JobsIn a world full of distractions and external influences, this quote encourages us to listen to our intuition. Its vital to stay true to ourselves and our ideals, despite what others might say. Our inner voice often contains the quidance we need. Lets trust
our instincts and opinions as we navigate lifes journey. By doing so, we can pursue our paths with confidence and authenticity, leading to our personal growth and fulfillment. Your work is going to fill a large part of your life, and the only way to be truly satisfied is to do what you believe is great work. Steve JobsThis quote highlights the significance of
passion in our work. Finding fulfillment in what we do leads us toward happiness and satisfaction. It reminds us to seek endeavors that resonate with our values and inspire us. By pursuing what we consider great work, we forge a more fulfilling path in our
lives.I think everybody in this country should learn how to program a computer, because it teaches you how to think. Steve JobsLearning to program is more than just acquiring a skill; it nurtures critical thinking and problem-solving abilities. This quote encourages us to embrace learning and expand our minds. Understanding the language of
technology makes us more versatile in various aspects of life.Lets take opportunities to develop our knowledge and skills, as they empower us to approach problems with confidence and creativity. Programming teaches us to break down challenges, which can lead to incredible insights and solutions. Quality is more important than quantity. One home
run is much better than two doubles. Steve JobsThis quote speaks to the importance of making our efforts count. Instead of focusing solely on the number of tasks we complete, we should prioritize the value and impact of our work. A single, significant achievement often outweighs multiple lesser efforts. Lets set our sights on creating outstanding
work that makes a real difference. By concentrating on quality, we can ensure that our efforts are meaningful and remembered. Things dont have to change the world to be important. Steve JobsNot every action needs to have a monumental impact in order to hold significance. This quote reminds us that even small contributions can create ripples of
change. Every effort counts, whether in our personal lives or in our communities. Lets celebrate the little things we do, as they may lead to more significant good over time. Our humble actions can create a legacy that is meaningful and impactful. I didnt see it then, but it turned out that getting fired from Apple was the best thing that could have ever
happened to me. Steve JobsSometimes, setbacks can turn into hidden blessings. This quote encourages us to maintain a positive outlook even in tough situations. What seems like a failure today may lead to new opportunities tomorrow. Lets embrace changes in our lives with optimism, as they often guide us to better paths. By accepting these
moments as learning experiences, we can grow and thrive amid challenges. The greatest artists in the world are never completely happy. Steve JobsAs creative individuals, we often have high standards for ourselves and our work. This quote emphasizes that its natural to be continuously striving for improvement. Recognizing our imperfections can
fuel our desire to create even better work. Lets keep pushing the boundaries of our art and talents, questioning our output, and searching for ways to refine our skills. Remember, our pursuit of excellence can be a lifelong journey of learning and growth. Innovation comes from saying no to a thousand things. Steve JobsThis quote highlights the
importance of focus and prioritization. In a world full of distractions and options, we often achieve greatness by narrowing our efforts and committing to what matters most. Learning to say no can open doors to innovative ideas. Lets practice discernment in our pursuits, focusing our energy on endeavors that resonate deeply with our goals. This clarity
can guide us toward successful outcomes and creative advancements. Our goal is to make the best devices in the world, not to be the biggest. Steve JobsPrioritizing quality over size is important for any project or business. This quote serves as a reminder to focus on creating a meaningful impact rather than seeking mass appeal. Exceptional work can
lead to sustainable growth and reputation. Lets strive for greatness in our endeavors, holding ourselves to high standards. By doing so, we can build something truly worthwhile that stands the test of time. If you look closely, most overnight successes took a long time. Steve JobsThis quote illustrates the idea that success rarely happens by chance.
Behind every overnight success lies years of hard work, dedication, and perseverance. We shouldnt be discouraged by slow progress, as consistent effort leads to meaningful achievements. Lets remember that patience is a virtue on our path to success. By keeping our eyes on our goals and being willing to work hard, we can eventually see the fruits of
our labor.Do not let your memories be greater than your dreams. Steve JobsThis quote encourages us to look forward instead of fixating on the past. While our memories may be precious, we should not lose sight of our aspirations and dreams. It inspires us to pursue future possibilities instead of being held back by nostalgia.Lets take this advice to
heart and continue to aim high in our lives. By nurturing our dreams, we can create exciting and fulfilling futures ahead. Being the richest man in the cemetery doesnt matter to me. Steve JobsTrue fulfillment comes from making a positive impact rather than
accumulating wealth. This quote highlights the importance of purpose and contribution in our lives. Success should align with our values and aspirations, leading us toward happiness. Lets focus on creating a legacy that makes a difference. At the end of the day, it is our actions and the love we share that define our true success. Sometimes life hits you
in the head with a brick. Dont lose faith. Steve JobsLife can be tough, and we may face unexpected challenges. This quote reminds us to hold onto hope during difficult times. Resilience and faith in ourselves will help us push through any obstacles that come our way. Lets encourage one another during these tough moments, knowing that we can rise
again. By staying faithful and persistent, we can overcome trials and emerge even stronger. Im not a technology evangelist. Steve JobsThis quote embodies the idea of sharing enthusiasm and passion for technology rather than focusing solely on its technical aspects. We can all act as ambassadors for the things we love by promoting and
sharing our insights with others. Lets embrace our role as advocates for what were passionate about. By doing so, we can inspire others and spread the excitement about innovation drives progress and sets individuals apart from those who
simply follow. This quote encourages all of us to embrace new ideas and challenge existing notions. It inspires us to think critically and forge our paths. Lets aspire to be leaders in our fields by nurturing creativity and taking bold steps. By cultivating innovation, we can create unique solutions and make a difference in our pursuits. If today were the
last day of your life, would you want to do what you are about to do today? Steve JobsThis powerful question encourages us to evaluate our day-to-day choices and ensure they align with our passions. It serves as a reminder of the importance of living intentionally and pursuing what truly matters to us. Lets reflect on our daily routines and actions,
ensuring were dedicating our time to what is meaningful and fulfilling. This perspective can guide us to live our lives more purposefully and authentically. The people who are crazy enough to think they can change the world are the ones who do. Steve JobsThis bold statement inspires us to embrace our ambition and resist self-doubt. Every great
change in our world started with someone who dared to dream big. When we believe in ourselves and our ideas, we can push the boundaries of whats possible. Lets be those fearless individuals ready to make a difference in the world. If we think beyond the norm, we can inspire change and lead revolutionary movements. Were just enthusiastic about
what we do. Steve JobsPassion fuels our best work, and this quote encourages us to approach our encleavors with enthusiasm. When we genuinely care about our projects, we not only create better work but also encourage those around us to feel motivated. Lets keep our excitement alive and share it with others. This zest for our passions can cultivate
a positive environment where creativity flourishes and success follows. In most peoples vocabularies, design is not just what it looks like and feels like. Design is not just what it looks like and feels like. Design is not just what it looks like and feels like. Design is not just what it looks like and feels like. Design is not just what it looks like and feels like. Design is not just what it looks like and feels like. Design is not just what it looks like and feels like. Design is not just what it looks like and feels lik
holistic concept that serves purpose, enhancing user experiences. Lets focus on creating designs that excel in both form and function. By doing so, we ensure our creations resonate well and meet the needs of those who encounter them. Were here to put a dent in the universe. Otherwise why else even be here? Steve JobsThis thought-provoking quote
motivates us to seek a greater purpose in our lives. It encourages us to aim high and aspire to create meaningful change rather than drifting through life aimlessly. We all have the potential to make a difference. Lets strive to create impact in our lives and the lives of others, believing that we each possess the ability to leave a mark. Embracing this
mindset helps us focus on our goals and ambitions. I think the biggest innovations of the twenty-first century will be at the intersection of biology and technology. Steve JobsThis quote highlights the transformative potential when we combine different fields. Innovation emerges when we merge ideas from various disciplines, and it opens doors to new
possibilities. Embracing interdisciplinary approaches allows us to think creatively. Lets keep an open mind about collaboration across different areas. By merging our skills and knowledge, we can create groundbreaking solutions together. The hardest thing is to decide to act, the rest is merely tenacity. Steve JobsThe first step in any journey is often
the most challenging. This quote emphasizes the importance of taking action and how vital it is to commit to our choices. Once we begin, persistence will help us carry our plans through to completion. Lets conquer our hesitations and take that crucial first step. The tenacity we develop afterward will propel us forward toward our goals and
our abilities, and the people around us. By believing in our journey, we can open doors to new opportunities that enrich our lives. I think were in a great transition right now, I think were going to see a lot of radical changes in the next few years. Steve JobsThis forward-looking statement speaks to the inevitability of change and growth in various
industries. It encourages us to embrace change rather than fear it, as it presents opportunities for innovation and advancement.Lets keep an eye on emerging trends and be prepared to adapt. By welcoming change, we can stay ahead and maximize our potential in our respective fields. Its not the tools you have faith intools are just tools. They work, or
they dont work. Its people you have faith in or not. Steve JobsThis quote highlights the essential role of people in the creative process. While tools can aid us, it is ultimately the human spirit and creativity that drive innovation. Its our ideas and collaboration that lead to impact. Lets focus on building strong relationships with those we work alongside
By fostering a culture of trust and collaboration, we can achieve much greater results together. Youve baked a really lovely cake, but then youve used dog shit for frosting. Steve JobsIts crucial to attend to every detail of our projects, as even the smallest oversight can undermine our efforts. This quote stresses the importance of quality across all
aspects of our work, and how all parts must align for a successful outcome.Lets keep our standards high, ensuring that everything we create reflects our best efforts. By maintaining quality integrity, we can build a reputation that speaks for itself. The things you built that make the world a better place through good design and good technology are
great. Steve JobsMaking a positive difference through our work should be our motivation. This quote encourages us to consider how our creations can improve lives and experiences for others. By approaching our projects with purpose, we contribute to a greater cause. Lets strive to create designs and technologies that truly enrich the world. Our
 commitment to improving lives speaks volumes about our works value and importance. Good artists copy; great artists steal. Steve JobsThis quote playfully indicates that borrowing ideas can push innovation further. It encourages us to be inspired
by the work of others.Lets embrace inspiration from various sources while adding our unique spin. By blending ideas, we can craft creations that resonate with a broader audience. Sometimes lifes gonna hit you in the head with a brick. Dont lose faith. Steve JobsLife can throw unexpected challenges our way and its essential to remain resilient. This
quote reminds us to hold on to our dreams and remain hopeful even during tough times. Faith can guide us through obstacles and challenges.Lets support each other through lifes trials, knowing that perseverance can lead us to brighter days ahead. Together, we can rise above adversity and continue on our paths. Were all very creative, we just have
to get rid of the things that block us. Steve JobsEach one of us holds immense creativity; its often external pressures and doubts that stifle it. This quote inspires us to identify what holds us back so we can unleash our creative potential. By recognizing these barriers, we open pathways for our ideas to flourish. Lets encourage one another to break free
from constraints and embrace our innovative spirit. Our creativity can lead to transformational ideas when we allow it to shine. I think the overall motivation for success is the desire to make a contribution to life. Steve JobsSuccess should not just be about personal achievement but also about contributing positively to the world around us. This quote
highlights the importance of purpose in our endeavors. Knowing that we can add value to the lives of others can invigorate our pursuit of success.Lets keep in mind that our contributions matter and can make a big difference. By focusing on how we can uplift others, we create a more rewarding path for ourselves as well. Letting go of the past is the
first step to moving on. Steve JobsThis quote emphasizes the significance of leaving behind past experiences that may hinder our growth. To embrace new opportunities, we must first release old attachments. It encourages us to focus on the present while shaping a brighter future. Lets practice letting go of what no longer serves us. By doing so, we
become open to new experiences that can lead us to a fulfilling life. Every experience is a lesson. Steve JobsThis quote serves as a reminder that every moment we encounter can provide valuable lessons for our personal growth. Even when challenges arise, we can transform difficulties into opportunities for learning and self-discovery. Lets embrace
lifes lessons, seeing them as gifts that shape who we are. By taking this approach, we can continuously evolve and develop a deeper understanding of ourselves. You can only connect them looking backward. Steve JobsThis quote highlights that life experiences often make sense only in hindsight. When we
look back, we can see how different experiences have shaped our paths and led us to profound opportunities. It encourages us to trust the process as we make our way through life. Lets remember that every step we take builds our journey. By having faith in our choices, we can feel confident as we navigate our paths, knowing that things will come
together over time. Sometimes you have to look at the world through a different lens to make sense of it. Steve JobsPerceiving situations from various perspectives is essential for understandings. It encourages us to embrace curiosity and openness as
we explore different angles. Lets be willing to adapt our perspectives, as doing so can reveal unique insights. By broadening our views, we increase our chances of innovation and understanding. The worst thing about being lost is not knowing it. Steve JobsThis quote reflects the importance of self-awareness in our journeys. Recognizing when we are
off-course helps us make the necessary adjustments to find our way. Its crucial to stay connected with our goals and values as we navigate life. Lets encourage ourselves and each other to reflect honestly on our paths. By staying aware of our surroundings, we can make better decisions that align with our aspirations. Trust in your instincts and believe
that you can do it. Steve JobsThis quote emphasizes the importance of confidence and intuition in our lives. When we trust ourselves, we become more capable of making bold decisions that lead us toward success. It inspires us to take risks based on our beliefs. Lets nurture our self-trust. By believing in our capabilities, we can face challenges head-on
and confidently pursue our goals without holding back. Sometimes the best ideas come from simply putting your thoughts on paper. Steve JobsJournaling can be an effective way to clarify our thoughts and discover innovative ideas. Putting ideas down allows us to reflect on and assess their potential, leading to breakthroughs that may not have
occurred otherwise. Lets make a habit of capturing our thoughts on paper, as this practice can unlock insights and creativity we might not discover otherwise. Documenting ideas encourages us to explore possibilities. Its hard to make a product that is not only beautiful but also works well. Steve JobsCreating a product that strikes a balance between
aesthetics and functionality can be challenging yet rewarding. This quote serves as a reminder that good design takes effort and direction, ensuring that every detail caters to user experiences. Lets continue to prioritize both beauty and functionality in our projects. By merging these two aspects, we enhance our creations and the lives of those who
engage with them. Be compassionate. Be a strong leader who advocates for others. Steve JobsThis quote speaks volumes about the importance of compassionate leaders inspire loyalty and create a sense of belonging. Lets practice
compassion in our relationships and actions. By being supportive towards others, we foster a culture of collaboration and encourage everyone to thrive. The beauty of life is in its uncertainty can lead to unexpected discoveries and experiences
that enrich our lives. Embracing this element allows for growth and creativity to flourish. Lets celebrate the unknowns and approach them with curiosity rather than fear. By doing so, we open ourselves up to a myriad of opportunities that can transform our lives. Your purpose in life is to find your purpose and give your whole heart and soul to it. Steve
JobsFinding our purpose gives our lives direction and meaning. This quote serves as a reminder that we should dedicate ourselves wholeheartedly to pursuits that resonate with our passions. When we align our efforts into these
pursuits. Our passionate dedication can create a genuine impact and lead us to happiness. I think the greatest innovation is telling a story, and that storytelling is a powerful tool for connecting with others and conveying our messages. This quote emphasizes the importance of shared
experiences in shaping relationships. Through storytelling, we can foster empathy and understanding among people. Lets embrace the art of storytelling as a means to express our ideas and emotions. By sharing our stories, we create bonds and inspire others to connect with our journeys. Final Thoughts Steve Jobs quotes offer us valuable insights into
creativity, passion, and resilience. They remind us to embrace our individuality, trust in our instincts, and aim for excellence and innovation. Embracing our unique paths will lead us to create
meaningful impacts in our lives and the lives of others. As we move forward, lets carry these lessons in our hearts. We can encourage each other along the way, seeking to make a difference through our passions and talents. Cupertino California and went toReed College in Portland Oregon in 1972 but dropped out after only onesemester, staying on to "drop in" on courses that interested him. He took a job with video game manufacturer Atari to raise enough moneyfor a trip to India and returned from there a Buddhist. Back in Cupertino he returned to Atari where his old
Computer was formedshortly afterwards. The Apple II was credited with starting theoremsonal computer boom, its popularity prompting IBM to hurriedlydevelop their own PC. By the time production of the Apple II ended in 1993 it had sold over 6 million units. Inspired by a trip to Xerox's Palo Alto Research Center (PARC), engineers from Apple began
working on a commercial application for thegraphical interface ideas they had seen there. The resulting machine, Lisa, was expensive and never achieved any level of commercial success, but in 1984 another Apple computer, using the same WIMP (Windows, Icons, Menus, Pointer) interface concept, was launched. An advertduring the 1984 Super Bowl,
directed byRidley Scott introduced the Macintoshcomputer to the world (in fact, the advert had been shown on a local TVchannel in Idaho on 31 December 1983 and in movie theaters duringJanuary 1984 before its famous "premiere" on 22 January during theSuper Bowl). In 1985 Jobs was fired from Apple and immediately founded anothercomputer
company, NeXT. Its machines were not a commercial success butsome of the technology was later used by Apple when Jobs eventually returned there. In the meantime, in 1986, Jobs bought The Computer Graphics Group from Lucasfilm. The group was responsible for making high-end computergraphics hardware but under its new name, Pixar, it
began to produce innovative computer animations. Their first title under the Pixar name, Luxo Jr. (1986) won critical and popular acclaim and in 1991 Pixar signed an agreement with Disney, with whom italready had a relationship, to produce a series of feature films, beginning with Rotalietas ststs (1995). In 1996 Apple bought NeXT and Jobs returned
to Apple, becoming its CEO. With the help of British-born industrial designer Jonathan Ive, Jobs brought his ownaesthetic philosophy back to the ailing company and began to turn itsfortunes around with the release of the iMac in 1998. The company's MP3 player, the iPod, followed in 2001, with the iPhone launching in 2007 and the iPad in 2010. The
company's software music player, iTunes, evolved into an online music (and eventually also movie and software application) store, helping to popularize the idea of "legally"downloading entertainment content. In 2003, Jobs was diagnosed with pancreatic cancer and underwentsurgery in 2004. Despite the success of this operation he became increasingly
ill and received a liver transplant in 2009. He returnedto work after a six month break but eventually resigned his position in August 2011 after another period of medical leave which began in January 2011. He died on 5 October 2011. Steve Jobs is remembered as one of the tremendousinnovator of the century. He was a brilliant entrepreneur and
amazing visionary. The former CEO of Apple was a leader and a legend. Beyond his extra ordinary business and innovatory skills he was a great thinker and has clear vision about life. He had given good thoughts about making mistakes, following your intuition, and making the most of lifes limitedtime. When he died, he not only left behind an
extremely successful company, but also manywords of wisdom. Here are best Steve Jobs quotes to inspire and motivate you: Steve Jobs Quotes You can only connect them looking backwards. JobsMost people dont get those experiences because they never ask. Ive never found anybody that didnt want to help me if I asked them for help. Steve JobsLife goes on and you learn from it. Steve Jobs #{mainText} #{author} #{location} #{author} #{location} Over a
million people from all over the world have shared their memories, thoughts, and feelings about Steve. One thing they all have in common from personal friends to colleagues to owners of Apple products is how theyve been touched by his passion and creativity. You can view some of these messages below. And share your own at
rememberingsteve@apple.com Steven Paul Jobs was an American business magnate, industrial designer and investor. He was a charismatic pioneer of the computer era. He was the co-founder of Pixar; a member of The Walt Disney Companys board of
directors following its acquisition of Pixar; and the founder, chairman, and CEO of NeXT. Jobs was one of the first entrepreneurs to understand that the
personal computer would appeal to a broad audience. With his Apple Inc. he eventually went on to revolutionize the industry. He died of respiratory arrest related to the tumor at age 56 on October 5, 2011. No matter what endeavour you embark upon, the goal should always be knowledge. You need to have that passion to find answers, to know more
and learn more. In the end, you need to have faith in what you do. You need to trust yourself and believe that whatever you are doing will lead to something. However bleak the future may look, you need to have faith. Unless you truly love what you do, you can never succeed. Only with a true passion for whatever it is you are doing can you ever reach
the top. Without love for your work, all of it will seem a dreadful drag. Our eyes should always be set ahead, not behind. Care not for what happened yesterday will only hold you back. Stay focused on the work that you do and always keep it simple. Never let your mind stray away
from the work that you have to do. Everything else is just background noise. Time is probably one of the most important things we have. It never waits for anyone. And its up to you to use your time with the utmost care. We become the people that we look up to. Their shadow always a
looms over us. If you ever lose sight of who you are, just look at who your heroes are and youll find yourself in their visage. If you wish to lead a meaningful life, you have something that adds meaning to your life. Its always more fun to lead a
care-free life than stick to rules. The shackles that chain you up will always hold you back. You need to be able to make your own free decisions rather than be led by someone elses rules. Do not let yourself be led by others opinions. There will always be people who have something meaningless to say. Pay no heed to their chatter. Focus on yourself
and your inner voice. There will always be times when life hits you from nowhere. Youll be pushed into the deepest pits of despair with no way of getting out. But remember to always have faith. Nothing in life is permanent. Not even the bad days. Always listen to your heart. No matter how tough the road ahead may seem, remember, it will always be
 worth it. There never is a reason to not follow your heart. Youll find happiness waiting for you on the other end if you follow your heart. If you wish to make it to the top and do all that your heart. Youll always end up falling right back down. Death is
the reason for all progress in life. If there was no impending end waiting for man, he would lazily walk on. Everytime life seems to drag you down, remember the finish line that is ahead. Get wind back in your sails and
keep going ahead. Those who stop in life will never make it to anywhere meaningful. Life never stops for anyone. It goes on no matter what you face. All you can do at the end of it all. The legacy you leave behind exists even
after you have left. What matters is that you leave behind something that you can be proud of. Taking the first step is always the hardest. You need to muster up the courage to get out of your comfort zone and actually take action. But once you make it through the first step, things roll out on their own. Regardless of however tough that first step is,
you do have to take it. What matters is the attitude. If you can act like you can act like you can act like you are doing, do it right. Details actually do matter. It is always worth it to sit down and get it right to the smallest detail. Never leave
things half undone.1. In the broadest context, the goal is to seek enlightenment however, you define it. -Steve Jobs 2. You have to believe that the dots will somehow connect in your future. -Steve Jobs 3. If you don't love it, you are going to fail. -Steve Jobs 4. Lets go invent tomorrow rather than worrying about what happened yesterday. -Steve Jobs 5.
Thats been one of my mantras Focus and Simplicity. -Steve Jobs6. The most precious thing that we all have with us is time. -Steve Jobs9. Its more fun to be a pirate than to join the
navy. -Steve Jobs10. Dont let the noise of others opinions drown out your own inner voice. -Steve Jobs11. Sometimes life hits you in the head with a brick, dont lose faith. -Steve Jobs13. If you want it you can fly, you just have to trust you alot. -Steve Jobs14. Without death, there would be very
little progress. -Steve Jobs15. You get your wind back, remember the finish line, and keep going. -Steve Jobs16. Life goes on and you learn from it. -Steve Jobs17. When you die, it doesnt just all disappear. -Steve Jobs16. Life goes on and you learn from it. -Steve Jobs17. When you die, it doesnt just all disappear. -Steve Jobs17. When you die, it doesnt just all disappear. -Steve Jobs18. Sometimes the first step is the hardest one, and we gotta take it. -Steve Jobs19. If you act like you can do something, it will work.
Steve Jobs 20. Details matter, its worth waiting to get it right. -Steve Jobs How can financial brands set themselves apart through visual storytelling? Our experts explainhow. Learn More The Collection Curated, compelling, and worth your time

Learn MoreThe Motorsport Images Collections captures events from 1895 to todays most recentcoverage. Discover The Collection Curated, compelling, and worth your time. Explore our latest
gallery of EditorsPicks.Browse Editors' Favorites To go forward you have to leave something behind Strategy is figuring out what not to do. The most precious resource we have is time. Page 2 Don't just live a life; build one. The journey is the reward Here's to the crazy ones, the misfits, the rebels, the troublemakers, the round pegs in the square
holes... the ones who see things differently - they're not fond of rules... You can quote them, disagree with them, glorify or vilify them, but the only thing you can't do is ignore them because the ones who are crazy enough
to think that they can change the world, are the ones who do. Page 3 Innovation is the only way to win. Focusing is all about saying no A brand is simply trust. Page 6 Don't be afraid, you can do it. Let's go invent tomorrow... If you don't cannibalize yourself,
someone else will. The minute that you understand that you can poke life and actually something will pop out the other side, that you can mold it. That's maybe the most important thing. It's to shake off this erroneous notion that life is there and you're just gonna live in it, versus embrace it, change it, improve it, make your mark
upon it. I think that's very important and however you learn that, once 
dent in the universe. Focusing is about saying No. Page 8 Love what you do...Don't settle Page 9 Innovation is saying 'no' to 1,000 things. I mean, some people say, 'Oh, God, if [Jobs] got run over by a bus, Apple would be in trouble.' And, you know, I think it wouldn't be a party, but there are really capable people at Apple. My job is to make the whole
executive team good enough to be successors, so that's what I try to do. Page 10 So when a good idea comes, you know, part of my job is to move it around, just see what different people talking about it, argue with people talking about it, argue with people about it argue with people about it argue with argue with people about it argue 
aspects of it quietly, and, you know just explore things. Page 12 Page 13 I've read something that Bill Gates said about six months ago. He said, I worked really, really hard in my 20s. And I know what he means, because I worked really, really hard in my 20s. And I know what he means, because I worked really, really hard in my 20s. And I know what he means, because I worked really, really hard in my 20s too. Literally, you know, 7 days a week, a lot of hours every day. And it actually is a
wonderful thing to do, because you can get a lot done. But you don't want to do it forever, and you have to come up with ways of figuring out what the most important things are and working with other people even more. Never settle for average. Page 14 That's my job - to make sure everything is great. I'd rather be a Pirate
than join the Navy Page 15 Page 16 It takes these very simple-minded instructions - 'Go fetch a number, add it to this number, put the result there, perceive if it's greater than this other number, add it to this number, put the result there, perceive if it's greater than this other number, add it to this number, add it to this number, and it
looks. It's how it works. Oh wow. Oh wow went to Atari and said, 'Hey, we've got this amazing thing, even built with some of your parts, and what do you
think about funding us? Or we'll give it to you. We just want to do it. Pay our salary, we'll come work for you. You haven't got through college yet.' Page 22 Probably death is the best invention of life. No one is going to buy a big phone. Page 23 Page 24
Steve Jobs is the legendary and innovative entrepreneur, most commonly known as the founder of Apple. Keep reading for some of the best Steve Jobs guotes to motivate you to go after your dreams, no matter how high they are: Legendary innovator, Steven Paul Jobs, was born on February 24th, 1955, in San Francisco, California. He held a passion
for technology and design from a young age. In 1974, he dropped out of Reed College to pursue a video game designer role at Atari. Later in the year, Jobs reconnected with an old high school friend, Stephen Wozniak, discovering that Wozniak had designed his own computer logic board. Wozniak was working for Hewlett Packard Company at the
time, and when they denied his design, he and Jobs went into business together. Jobs and Wozniak designed the board in Jobs garage. After much time, effort, and hustling to generate funding, the Apple II, which came with a fully functioning keyboard. With
Jobs networking gaining them access to financing, publicity, and distribution, the Apple II hit the market in 1977 and was a success. Over the years, they gathered a small team of developers. This then helped Apple make a quick entrance into Fortune 500s list of companies by 1983. However, with Jobs push for the failed creation of MacIntosh
computers, tension rose around him in the company, eventually leading to Jobs being fired. With his newly gained freedom, Steve Jobsundertook two new firms: Next Inc. and Pixar. Over time, he turnedPixarinto a major animation studio. He scored billions of dollars and even some accolades, such as the first full-length feature film to be entirely
computer-animated (Toy Story, 1995). During Apples financial losses in 1996, a new chief executive was hired. They then bought Jobs NEXTSTEP operating system and brought Jobs back on to lead the team. For the rest of his career, Steve Jobs grew in fame and fortune. His success was due to his versatile, original Apple products, such as the iMac
iBook, iPod, iPhone, and iPod/iPhone Touch. In 2003, he was diagnosed with a rare form of pancreatic cancer. It was eventually cured, but it led to various health issues that led him to his death. He died on October 5th, 2011. Steve Jobs was one of the most successful entrepreneurs due to his creation of many revolutionary technologies. He left behind
a large legacy that continues to impact todays most innovative minds. Discover some inspiring quotes below that offer advice on business and insight on the beauty of simplicity. This photo was created entirely by Matthew Yoke. Your work is going to fill a large part of your life, and the only way to be truly satisfied is to do what you believe is great
work. And the only way to do great work is to love what you do. If you havent found it yet, keep looking and dont settle. -Steve JobsPeople say you have to have a lot of passion for what your doing, and its totally true. And the reason is that its so hard that if you dont, any rational person would give up. Its really hard. And you have to do it over a
sustained period of time. So if you dont love it, if youre not having fun doing it, you dont really love it, youre going to give up. -Steve JobsAnd most important, have the courage to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary. -Steve JobsAnd most important, have the courage to follow your heart and intuition. They somehow already know what you truly want to become.
kept me going was that I loved what I did. Youve got to find what you love. -Steve JobsYouve got to have an idea, or a problem or a wrong that you want to right that youre passionate about; otherwise, youre not going to
have the perseverance to stick it through. I think thats half the battle right there. -Steve Jobs I dont care about success and doing the right. I care about successful. -Steve Jobs I think that about half of what separates
the successful entrepreneurs from the non-successful ones is pure perseverance. It is so hard. You put so much of your life into this thing. There are such rough moments in time that I think most people give up. I don't blame them. Its really tough, and it consumes your life. -Steve JobsBeing the richest man in the cemetery doesn't matter to me Going
to bed at night saying weve done something wonderful. Thats what matters to me. -Steve JobsIf you really look at the ones that ended up, you know, being successful and loved what they did, so they could persevere, you know, when it got really tough. And the
ones that didnt love it quit because theyre sane, right? Who would want to put up with this stuff if you dont love it? -Steve JobsI think money is a wonderful thing because it enables you to do things; it enables you to invest in ideas that dont have a short-term payback and things like that. -Steve JobsMy favorite things in life dont cost any money. Its
really clearthat the most precious resource we all have is time. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the crappy stuff and focus on the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the good stuff. -Steve Jobs Just get rid of the g
people that really did it were also the people that really worked through the hard intellectual problems as well. -Steve JobsThe doers are the major thinkers. The people that really great person will keep on going and find the key, underlying
principle of the problem, and come up with a beautiful, elegant solution that works. -Steve JobsWhen you ask creative people how they did something. It seemed obvious to them after a while. Thats because they were able to connect experiences theyve had and synthesize
new things. And the reason they were able to do that was thattheyve had more experiences, or they have thought more about their experiences than other people. -Steve JobsWhen youre not going to go the extra mile, work the
extra weekend, challenge the status quo as much. -Steve JobsSo its a lot of hard work, and it you dont love it, and youve got to have passion, and I think thats the high-order bit. -Steve JobsIve always been attracted to the more revolutionary changes. I dont know why.
Because theyre harder. Theyre much more stressful emotionally. And you usually go through a period where everybody tells you that youve completely failed. -Steve JobsThe doers are the major thinkers. The people that really create the things that
change this industry are both the thinker and doer in one person. Steve Jobs The people that have really made the contributions have been the thinkers and then try to bring those things into what yourself to the best things that humans have done and then try to bring those things into what yourself to the best things that humans have done and then try to bring those things that humans have done and then try to bring those things into what yourself to the best things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things that humans have done and then try to bring those things the try to bring the try to b
doers. -Steve JobsThe greatest people are self-managing they dont need to be managed. Once they know what to do, theyll go figure out how to do it. What they need is a common vision. And thats what leadership is: having a vision; being able to articulate that so the people around you can understand it, and getting a consensus on a common vision.
Steve JobsStay hungry, stay foolish. -Steve JobsYou can influence it. -Steve JobsYou get your wind back, remember the finish line, and keep going. -Steve JobsYou get those experiences because they never ask. Ive never found anybody that didnt want to help me if I asked them for help. -Steve JobsIf you act like you can
do something, then it will work. -Steve JobsIve never found anyone whos said no or hung up the phone when I called-I just asked. And when people ask me, I try to be as responsive, to pay that debt of gratitude back. -Steve JobsYou gotta be ready to crash and burn, with people on the phone, with
starting a company, with whatever. If your afraid of failing, you wont get very far. -Steve JobsMost people that just dream about them. -Steve JobsMost people never ask. And thats what separates sometimes the people that just dream about them. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. And that you wont get very far. -Steve JobsMost people never ask. 
learn business pretty fast. -Steve Jobs Everyone here has the sense that right now is one of those moments when we are influencing the future. -Steve Jobs Everyone here at the beginning of it, and were able to shape how it goes. -Steve Jobs Its really hard to designproducts by focus groups. A lot of
times, people dont know what they want until you show it to them. -Steve JobsOn how will the Web impact our society. People are thinking less. -Steve
JobsObviously, one of the great challenges of an education is to teach ushow to think. What were finding is that computers are actually going to affect the quality of thinking as more and more of our children have these tools available to them. -Steve JobsMy job is to say when something sucks rather than sugarcoat it. -Steve JobsIt doesn't make sense
to hire smart people and tell them what to do; we hire smart people, so they can tell us what to do. -Steve JobsYou cant just ask customers what they want and then try to give that to them. By the time you get it built, they limit ask customers what they want and then try to give that to do. -Steve JobsYou cant just ask customers what they want and then try to give that to them. By the time you get it built, they limit ask customers what they want and then try to give that to do. -Steve JobsYou cant just ask customers what they want and then try to give that to do. -Steve JobsYou cant just ask customers what they want and then try to give that to them. By the time you get it built, they limit ask customers what they want and then try to give that to do. -Steve JobsYou cant just ask customers what they want and then try to give that to do. -Steve JobsYou cant just ask customers what they want and then try to give that to do. -Steve JobsYou cant just ask customers what they want and then try to give that to do. -Steve JobsYou cant just ask customers what they want and then try to give that to do. -Steve JobsYou cant just ask customers what they want and then try to give that to do. -Steve JobsYou cant just ask customers what they want and then try to give that to do. -Steve JobsYou cant just ask customers when they want and the properties when the try to give the try to
our ideas or people. Thats what keeps us going to work in the morning, to hang around these great bright people. Ive always thought that recruiting is the heart and soul of what we do. -Steve JobsThat was what we learned: was that us, too, we didn't know much. We could build a little thing that could control a giant thing, and that was an incredible
lesson. -Steve JobsMore important than building a product, we are in the process of architecting a company that will be much more incredible; the total will be much more incredible; the total will be much more incredible; the total will be much more incredible than the sum of its parts. -Steve JobsIII tell you what our goal is: our goal is: our goal is to make the best personal computers in the world and to make products we are
proud to sell and recommend to our family and friends, and we want to do that at the lowest price we can. -Steve JobsWhat I do all day is meet with teams of people, and work on ideas, and solve problems, to make new products, to make new
marketing programs, whatever it is. -Steve JobsWe had everything to gain. And we figured even if we crash and burn and lose everything, the experience will have been worth ten times the cost. -Steve JobsWe had everything, the experience will have been worth ten times the cost. -Steve JobsWe had everything to gain. And we figured even if we crash and burn and lose everything, the experience will have been worth ten times the cost. -Steve JobsWe had everything to gain. And we figured even if we crash and burn and lose everything to gain. And we figured even if we crash and burn and lose everything to gain. And we figured even if we crash and burn and lose everything to gain. And we figured even if we crash and burn and lose everything to gain. And we figured even if we crash and burn and lose everything to gain. And we figured even if we crash and burn and lose everything to gain. And we figured even if we crash and burn and lose everything to gain. And we figured even if we crash and burn and lose everything to gain. And we figured even if we crash and burn and lose everything to gain. And we figured even if we crash and burn and lose everything to gain. And we figured even if we crash and burn and lose everything to gain.
other things a lot of worse. But so what? Its more important to be engaged in the present. -Steve JobsI didnt see it then, but it turned out that getting fired from Apple was the lightness of being a beginner again, less sure about everything. -Steve
JobsYour time is limited, sodontwaste it living someone elses life. Dontbe trapped by dogma which is living with the results of otherpeoples thinking. Dont letthe noise of others opinions drown out your own inner voice. -Steve JobsHumans are tool builders. We create things to amplify ourselves. The computer will rank at the top its the most awesome
tool ever. -Steve JobsWhat a computer is to me is the most remarkable tool that we have ever come up with. Its the equivalent of a bicycle for our minds. -Steve JobsMost of the time, were taking things. Neither you nor I made the clothes
we wear; we don't make the food or grow the foods we eat; we use a language that was developed by other people; we use another societys mathematics. Very rarely do we get a chance to put something back into that pool. I think we have that opportunity now. -Steve JobsWhen we create stuff, we do it because we listen to customers, get their inputs,
```

and also throw in what wed like to see, too. We cook up new products. You never really know if people will love them as much as you do. -Steve JobsThe point is that tools are always going to be used for certain things we dont find personally pleasing. And its ultimately the wisdom of people, not the tools themselves, that is going to determine whether

these things are used in positive, productive ways. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is another way we have an effect on society besides our computers. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. -Steve Jobs There is a tremendous amount of craftsmanship between a great idea and a great product. sayingno to 1,000 things. You have to pick carefully. -Steve JobsI discovered that the best innovation is sometimes the company, the way you organize a company is fascinating. -Steve JobsInnovation distinguishes between a leader and a follower. -Steve JobsInnovation comes from people meeting up in the hallways or calling each other at 10:30 at night with a new idea, or because they realized something that shoots holes in how weve been thinking about a problem. -Steve JobsMany companies forget what it means to make great products. After initial success, sales and marketing people take over, and the product people eventually make their way out. -Steve JobsIts hard to tell with these Internet startups if they companies or if they can be under the company, they wont luck into it. That's because its so hard that if you don't have a passion, youll give up. -Steve JobsI hate it when people call themselves entrepreneurs when what theyre really trying to do is launch a startup and then sell or go public, so they can cash in and move on. -Steve JobsSometimes, when you innovate, you make mistakes. It is best to admit them quickly and get on with improving your other innovations. -Steve JobsRecruiting is hard. Its just finding the needles in the haystack. -Steve JobsYou should never start a company with the goal of getting rich. Your goal should be making a company that will last. -Steve JobsQuality is much better than two doubles. -Steve JobsQuality is much better than quantity. One home run is much better than two doubles. -Steve Jobs If you look at the artists, if they get really good, it always occurs to them at some point that they can do this one thing for the rest of their lives, and they can be really successful to the moment that an artist really decides who he or she is. If they keep on risking failure, theyre still artists. -Steve JobsWhen youre a carpenter making a beautiful chest of drawers, youre not going to use a piece of plywood on the back, even though it faces the wall and nobody will ever see it. Youll know its there, so youre going to use a beautiful piece of wood on the back, even though it faces the wall and nobody will ever see it. Youll know its there, so youre going to use a beautiful piece of wood on the back, even though it faces the wall and nobody will ever see it. else wonderful, not dwell on it for too long. Just figure out whats next. -Steve JobsThe greatest thing is when you do put your heart and soul into something over an extended period of time, and it is worth it. -Steve JobsAs you are growing and changing, the more the outside world tries to reinforce an image of you that it thinks you are, the harder it is to continue to be an artist, which is why a lot of times, artists have to go. Im going crazy, and Im getting out of here. And they go and hibernate somewhere. Maybe later they re-emerge a little differently. -Steve JobsPicasso had a saying: good artists copy, great artists steal. And we have always been shameless about stealing great ideas, and I think part of what made the Macintosh great was that the people working on it were musicians and poets and artists and zoologists and historians who also happened to be the best computer scientists in the world. -Steve JobsFor you to sleep well at night, the aesthetic, the quality has to be carried all the way through. -Steve JobsI think the artistry is in having an insight into what one sees around them. Generally putting things together in a way no one else has before and finding a way to express that to other people who dont have that insight. -Steve JobsWhat I do see is a small group of people who are artists and care more about their art than they do about almost anything else. Its more important than joining the Marines, its more life is time. If you invest that time in yourself to have great experiences that are going to enrich you, then you cant possibly lose. -Steve JobsWe dont get a chance to do that many things, and everyone should be really excellent because this is our life. Life is brief, and then you die, you know -Steve JobsIhavelooked in the mirror every morning and asked myself: If today were the last day of my life, would Iwantto do what I am about to do today? And whenever the answerhasbeen No for too many days in a row, I know Ineed to change something. -Steve Jobs That was one of the things that came out most clearly from this whole experience [with cancer]. I realized that I love my life. I really do. Ive got the greatest family, and I love my family, and I love running Apple, and I love Pixar. And I get to do that. Im very lucky. -Steve JobsRemembering that Ill be dead soon is the most important tool Ive ever encountered to help me make the big choices in life. -Steve JobsInvest time in yourself to have great experiences that are going to enrich you. -Steve JobsDont take it all too seriously. If you want to live your life in a creative way, as an artist, you have to not look back too much. You have to be willing to take whatever youve done and whoever you were and throw them away. -Steve JobsRemembering that you are going to die is the best way I know to avoid the trap of thinking you have something to lose. You are already naked. -Steve JobsYouhaveto trust in something your gut, destiny, life, karma, whatever. Thisapproach has never letme down, and ithasmade all the difference in my life. -Steve JobsThats maybe the most important thing. Its to shake off this erroneous notion that life is there and youre just gonna live in it, versus embrace it, change it, improve it, make your mark upon it. I think thats very important and however, you learn that, once you learn that, youll want to change life and make it better, cause its kind of messed up in a lot of ways. Once you learn that, youll want to spend the rest of your life selling sugared water, or do you want a chance to change the world? -Steve JobsLets go invent tomorrow rather than worrying about what happened yesterday. -Steve JobsYou can tonnect the dots looking forward; you can only connect them looking backwards. So you have to trust that the dots will somehow connect in your future. -Steve JobsThe minute that you understand that you can poke life and actually something will pop out the other side, that you can mold it. -Steve JobsThings dont have to change the world to be important. -Steve JobsThings dont have to die. Even people who want to go to heaven dont have to change the world to be important. -Steve JobsThings dont have to die. ever escaped it. And that is as it should be because death is very likely the single best invention of life. -Steve JobsIn the broadest context, the goal is to seek enlightenment however, you define it. -Steve JobsOnce you discover one simple fact, and that is everything around you that you call life, was made up by people that were no smarter than you. -Steve JobsWhen you grow up, you tend to get told that the world is the way it is and your life inside the world. Try not to bash into walls too much. Try to have a nice family life, have fun, save a little money. Thats a very limited life. Life can be much broader. -Steve Jobs Theres lots of ways to be as a person. And some people express their appreciation to the rest of humanity is to make something wonderful and put it out there. And you never meet the people, you never shake their hands, you never hear their story or tell yours, but something is transmitted there. And its a way of expressing to the rest of our species our deep appreciation. So we need to be true to who we are and remember whats really important to us. -Steve JobsOne way to remember who you are is to remember who you have some people who are not the best people in the world, and you have to get rid of them, but I found my job has sometimes exactly been that to get rid of some people who didnt measure up and Ive always tried to do it in a humane way. But nonetheless, it has to be done, and it is never fun. -Steve JobsWhat are we, anyway? Most of what we think we are is just a collection of likes and dislikes, habits, patterns. At the core of what we are is our values, and what decisions and actions we make reflect those values. -Steve JobsWe attract a different kind of person a person who doesnt want to wait five or ten years to have someone take a giant risk on him or her. Someone who really wants to get a little over his head and make a little dent in the universe. -Steve JobsThe most important thing is a person. A person who incites and feeds your curiosity; and machines cannot do that in the same way that people can. -Steve JobsThe only way to do great work, and the only way to do great work. is to love what you do. If you havent found it yet,keep looking,dont settle. As with all matters of the heart, youll know when you find it. -Steve JobsPeople arent used to an environment where excellence is expected. -Steve JobsSimple can be harder than complex: You have to work hard to get your thinking clean to make it simple. But its worth it in the end because once you get there, you can move mountains. -Steve JobsI think different religions are different doors to the same house. Sometimes I think the house exists, and sometimes I dont. Its the great mystery. -Steve JobsBut its a disservice to constantly put things in this radical new light that its going to change everything. Things dont have to change the world to be important. -Steve JobsSteve Jobs Steve Jobs Steve Jobs Steve Jobs Steve Jobs But its a disservice to constantly put things in this radical new light that its going to change everything. Things dont have to change everything and intuition turned out to be priceless later on. -Steve Jobs Steve Jobs Steve Jobs But its advantage of the world to be important. Narrates Famous Apple Advertisement: Heres to the crazy ones. The misfits. The rebels. The round pegs in the square holes. The ones who see things differently. Theyre not fond of rules, and they have no respect for the status quo. You can quote them, disagree with them, glorify and vilify them. About the only thing you cant do is ignore them because they change things. They push the human race forward. And while some may see them as crazy, we see genius. Because the people who are crazy enough to think they can change the world are the ones who do. More Quotes:
