"a list of words." The term's first known use in English traces back to the 1500s. The four types of vocabulary are as follows: Listening vocabulary: We need to know these words to understand what we hear. If a friend told you, "The dishes served at this new restaurant are delectable," you'd need to know the meaning of the word delectable to
understand the meaning behind the whole sentence. Speaking vocabulary: Words we use in speech, aka when talking. Reading vocabulary type is much larger than speaking or listening vocabulary because writers use a more sophisticated or technical lexicon. Writing

It helps us express our thoughts and ideas and understand what we read and hear. It also allows us to connect with others and participate in social, academic, and even professional activities. The 2nd
Edition of the Oxford English Dictionary has entries for 171,476 words in use and thousands of obsolete words. But, when considering derivatives, English could easily have over a million words! Formal and informal vocabularies differ in the level of formality they portray. Formal vocabulary is typically used in professional, academic, or other more
serious contexts, often utilizing more complex and sometimes longer words. Informal vocabulary, including slang, idioms, contractions and colloquialisms, is used in casual conversations. Academic vocabulary refers to words commonly used in
everyday conversation. Regular vocabulary, conversely, includes words that are used in a variety of contexts, both casual and formal. English vocabulary can vary from the British English vocabulary. There are also unique vocabularies for other English-speaking areas like
Australia, Canada, or various regions of the UK. These differences could be as simple as a cookie (American English) or as complex as entirely different words for the same concept. Vernacular language is a dialect or way of speaking specific to a particular region or group. But standard vocabulary is a set of words we
accept and use across multiple regions or groups. Vernacular can significantly influence standard vocabulary as words from dialects often enter the widely accepted lexicon. Regional and the UK to refer to someone who's a friend. However, it is less
commonly used in the US that way because it means a romantic partner there. Similarly, cultural factors can lead to the creation of new words or the adoption of the US with large Hispanic populations. Here are a few
examples of regional variations: In the UK, you might take a lift to your flat, but in the US, you'd take an elevator to your apartment. Australians might put on their flip-flops. In the Southern US, soft drinks are usually referred to as coke. However, in the Northeast, you might call them soda; in
the Midwest, you'd likely call them pop. Vernacular language is the native language and dialects used by people in a specific country or area. It includes colloquial and slang expressions that might not be part of the standard vocabulary. Despite this, vernacular language often influences the standard vocabulary, leading to the adoption and
normalization of certain words and phrases. It is like how y'all is a common vernacular term in the Southern US that has made its way into wider English vocabulary is categorized into three main levels: high-frequency words, academic words and low-frequency words. High-frequency words are English's most commonly used words, like

The context in which you're communicating often determines the type of vocabulary you use. You'll likely use more formal, complex language in formal contexts such as academic papers, business meetings or official
documents. Informal contexts, such as casual conversations with friends, often utilize informal vocabulary, including slang, contractions and colloquial expressions. Teaching vocabulary to English language learners requires a multi-faceted approach. First, new words should be presented in a meaningful context, such as within a sentence or a story so
that learners can infer meaning. Next, encourage repetition and review to help cement the words in the learner's memory. Finally, learners should be allowed to use new words in speaking and writing.
