After careful review and feedback from teachers, Brewster joined the Teachers College (at Columbia University) Reading and Writing Project (TCRWP), which has an international and national network of educators who participate in this research based literacy project as their source of the professional learning. Almost three decades ago, Dr. Lucy Calkins, the founding director of the TCRWP, laid the foundation for this approach to literacy instruction and learning. Our K-5 educators will be working with a TCRWP trainer to implement the components of the reading and writing workshop. Each teacher who teaches English Language Arts has received the reading curriculum and the writing curriculum. Teachers participated in professional learning this summer in the district as well as at Teachers College, Columbia University. Two TCRWP trainers will visit the district throughout the year to work alongside teachers in a lab like setting to model what occurs in the reading and the writing workshop and help teachers to implement the curriculum. Teachers will administer the Fountas and Pinnell Reading Benchmark Assessment to determine a child's independent reading level and instructional level so that children are selecting and reading books at their level. This reading assessment system is based upon the Fountas and Pinnell Text Level Gradient, A-Z which assigns a letter to various levels of reading proficiency. In addition to the reading and writing curriculum, teachers will be using a new literacy intervention program that is aligned to the reading and writing workshop called the Fountas and Pinnell Leveled Literacy Intervention. Depending upon a child's independent reading level and instructional level that is determined by the benchmark assessment mentioned above, Reading Specialists, TESOL and Special Educators will use this system to address the learning needs of children who may need more time and assistance. The Components of the Reading and Writing Workshop At the heart of the TCRWP is the belief that children can become powerful, independent readers and writers if they are actively engaged in reading and writing. Daily reading and writing deepens and stretches childrens thinking about the world and helps them to advocate for themselves or others through their writing. By reading a rich and diverse collection of texts, students learn to use strategies to self-monitor, deepen their understanding and respond critically to what they read and write about. The primary goal of the TCRWP is to help educators to use the research on literacy from the last few decades to create lifelong readers and writers who are motivated and engaged. With daily exposure in the classroom, children develop stamina, deepen their interests, expand their vocabulary and develop strategies that help them to tackle more complex and diverse texts. The Essential Elements of Reading Instruction for Primary Grades K-2 According to Dr. Calkins inA Guide to the Reading Workshop, Primary Grades (2015), the essentials for reading instruction (p. 27) are as follows: Readers need teachers who demonstrate what it means to live richly literate lives, wearing, a love of reading on their sleeves. Readers need long stretches of time to read. "Readers need opportunities to read high interest, accessible books of their own choosing. Readers need to read increasingly complex texts appropriate for their grade level. Readers need explicit instruction in the skills of proficient reading. Readers need opportunities to talk and sometimes to write in response to texts. Readers need support reading nonfiction books and building a knowledge base and academic vocabulary through information reading. Readers need assessment-based instruction, including feedback that is tailored specifically to them. Struggling readers especially need instruction that is tailored to their specific strengths and needs, as well as extra time and extra help. Readers need teachers to read aloud to them. Readers need a balanced approach to language arts, one that includes a responsible approach to the teaching of writing as well as reading. The Essential Elements of Reading Instruction for Intermediate Grades 3-5 According to Dr. Calkins inA Guideto the Reading Workshop, Intermediate Grades (2015), the essentials for reading instruction (p. 26) are as follows: Learners need teachers who demonstrate what it means to live richly literate lives, wearing a love of reading on our sleeves. Learners need long stretches of time to read. Learners need opportunities to read high-interest, accessible books of their own choosing. Learners need explicit instruction in the skills of proficient reading. Learners need opportunities to talk and sometimes to write in response to their texts. Strugglers especially need instruction that is tailored to their specific strengths and needs, as well as extra time and extra help. Learners need teachers to read aloud. Learners need a balanced approach to language arts, one that includes a responsible approach to the teaching of writing as well as of reading. The Essential Elements of Writing Instruction for Primary Grades K-2 According to Dr. Calkins inA Guide to the Common Core Writing Workshop, Primary Grades(2015), the essentials of writing instruction are as follows (p. 35): Writing needs to be taught like any other basic skills, with explicit instruction and ample opportunity for practice. Children deserve to write for zeal, to write the kinds of texts that they see in the world, and to write for an audience of readers. Children need to be immersed in a listening and storytelling culture where their voices are valued and heard. Writers write to put meaning onto the page. Children invest themselves in their writing when they choose topics that are important to them. Children deserve to be explicitly taught how to write. Children deserve the opportunity to write. Children deserve the opportunity to cycle through the writing process. To write well, children need opportunities to read and to hear texts read and to read as writers. Children need clear goals and frequent feedback. The Essential Elements of Writing Instruction for Intermediate Grades 3-5 According to Dr. Calkins inA Guide to the Common Core Writing Workshop, Intermediate Grades(2015), the essentials of writing instruction are as follows (p. 23): Writing needs to be taught like any other basic skills, with explicit instruction and ample opportunity for practice. Children deserve to write for real purposes, to write the kinds of texts that they see in the world and to write for an audience of readers. Writers write to put meaning onto the page. Children invest themselves in their writing when they choose topics that are important to them. Children deserve to be explicitly taught how to write. Children deserve the opportunity and instruction to cycle through the writing process. To write well, children need opportunities to read and to hear texts read, and to read as writers. Children need clear goals and frequent feedback. A CD-ROM calledResources for Teaching Readingwhich contains a vast array of resources for the teachers such short texts, bibliographies, artistic renderings of charts, reproducible checklists, homework, mentor texts, videos and web links. The Reading Workshop Classroom Schedules vary in the reading and writing workshop, but ample time is needed so that children have daily exposure that follows a balanced literacy approach. The following processes can be observed in a reading workshop: A read aloud, which Dr. Calkins calls the heart and soul of the classroom (p. 53, A Guide to the Reading Workshop: Primary Grades, 2015). The purpose of the read aloud is to show students how to talk about books, listen to ideas, elaborate, connect ideas and engage in accountable talk about books (p. 53, A Guide to the Reading Workshop: Primary Grades, 2015). Teachers also use a popular approach called turn and talk which allows children to discuss their thinking with another student. A whole class mini-lesson, which is no longer than 10 minutes, is used to teach students an important reading strategy that they can apply a few minutes later and reference in the future when they need it. After the mini-lesson, children go off to read independently either in book clubs with others students who are reading the same book, alone or with a partner. A hallmark of the reading workshop is that it provides a crucial time for students to receive feedback from their teacher while they are working. When children are reading, the teacher is conferring with students individually, in skill groups or in small guided reading groups. During this time, the teacher is assessing, supporting, scaffolding, and extending student thinking and learning by acting as a coach or facilitator. During the reading workshop, children are actively engaged in close reading with the text in hand. Older children are taking notes in their writers notebook or using post-it notes and underlining text or words to collect evidence from the text and prepare to support their thinking using this evidence from the text. Younger children are engaged in more interactive work which includes shared reading, interactive writing, storytelling, guided reading and word study (phonological and phonemic awareness). For younger children, there is little teaching of phonics, spelling and vocabulary. At some point during the middle of the reading workshop, the teacher brings the whole class back together to share a mid-workshop teaching point that will help all readers. This five minutes is taken to redirect the students. Dr. Calkins calls this a quick eye on me moment as a way for the teacher to impart an important piece of information to children that will deepen their thinking. The teacher may forego this mid-point teaching moment if this interrupts the engagement or momentum. The teacher will know what to do. The reading workshop ends with the teacher bringing the class back together as a whole and connecting the students back to the mini-lesson. This short time, 10 minutes, is dominated by student talk about how they applied a strategy and stretched their thinking. It is important for children to know that learning is transferable and that they need to be able to recall and apply strategies and skills that have been previously taught. The Writing Workshop Classroom Like the reading workshop, children need to write daily. Schedules will differ and more time may need to be added to the literacy block. The TCRWP is built upon the demonstrate, scaffold, releaseto write approach. This approach relies upon the active and explicit teaching of writing skills and strategies that read writers use in their craft. In this approach, the teacherdemonstratesthe process that writers use to be successful in the type of writing that is being studied in a particular unit of study as cited above. Teacherscaffolds that students practice the steps for the type of writing that they are modeling. Teachersreleasestudents to write independently to draw upon strategies and skills that they have been taught. This process differs across grades because capacity and stamina are developed over time. The following components can be observed in a writing workshop: A whole class mini-lesson, which is no longer than 10 minutes, is used to teach children an important reading strategy that they can apply a few minutes later and reference in the future when they need it. Teachers may use document cameras, Smart boards or anchor charts to demonstrate a particular strategy for writing. After the mini-lesson, children go off to a writing center, their desks, the floor or a place that they can comfortably write independently for about 35 minutes. Children are writing in a writing folder, writing notebook or booklet depending upon the grade level. Like the reading workshop, the teacher is assessing, supporting, scaffolding, and extending student thinking and learning by acting as a coach or facilitator. Mid-workshop teaching points or a quick eye on me moment is a way to impart some important information as children continue through the writing process. The first stage of writing is calledrehearsalorpre-writtingor gathering entries in their writing folders, writers notebooks or booklets. When children are writing, the teacher is conferring with individuals or conducting skill or strategy groups with students. Over time and with guidance from the teacher, children move fromrehearsalordrafting. In drafting, children focus on the subject of their writing. Because it is important for children to transfer strategies and skills across their work, they may reference a mentor text or text that illustrates a particular style of writing that they are emulating. They may be seen reading a particular type of text or book to capture the essence of the writers craft or style of writing. After feedback from the teacher over a period of time, drafting moves torevison. During this process, children reflect on their writing and thinking. Teachers build future mini-lessons based upon common areas in childrens writing as well as conduct strategy sessions with students based upon their review and assessment of the type of writing that students are doing. After revision, comeseediting. The editing process is taught within mini-lessons, during mid-workshop teaching, during share sessions and homework assignments. The teacher uses authentic examples to share with students to illustrate editing. After the editing process, the teacher checks the student work once again before it ispublished(displayed publicly in the room or electronically). Overtime, students accumulate a variety of types of writing in their writing (print or digital) portfolios. The writing workshop ends with the teacher bringing the class back together as a whole and connecting the students back to the mini-lesson. This short time, 10 minutes, is dominated by students sharing how they applied a strategy and stretched their writing and thinking. As in the reading workshop, it is important for children to know that learning is transferable and that they need to be able to recall and apply strategies and skills that have been previously taught. As you read and digest this information, please feel free to speak with your child's teacher about this work. Please review the videos on the Teachers College web site provided in the links embedded above to get a better sense of this form of pedagogy and learning. We look forward to helping children to become more powerful readers and writers. Home / Our Series - Classroom Libraries Browse Representative Titles Library Shelves Kids who have access to great books become readers. There is simply nothing that makes teaching reading easier, that gets kids reading with tremendous volume, or that lifts reading skills higher than a collection of truly fabulous books. The Reading & Writing Project has developed state-of-the-art classroom libraries for each grade level, K3. Curated by Lucy Calkins and colleagues along with a team of literacy leaders and childrens literature experts, these libraries contain 400700 leveled books at each grade levelall organized into collections and shelves based on level, genre, topic, and available in versions for students reading both at and below benchmark. About the Classroom Libraries As the team worked to develop these libraries, several key ideas guided the selection process: The libraries aim to introduce as many authors and titles as possible, with books selected for high interest, richness (books that can be mined again and again), and quality of writing and content. The libraries include some all-star classics, but also many of the newest cutting-edge titles. To ensure all students have access to high-quality, high-interest books, libraries for students reading significantly below benchmark are available for grades 18. A helpful Guide (K2, 35, 68) and a set of grade-specific tools help teachers organize the books and make them inviting and accessible to children. A Note About the Middle School Upper-Grade Libraries: Please know that the titles in the Classroom Libraries were evaluated and recommended by educators and librarians from across the country and around the world, and reviewed and vetted by the country's leading experts in childrens literacy and literature. Titles were chosen for their high-interest topics, rich literary qualities, and strong potential to develop critical thinking. Because the upper-grade libraries include many contemporary YA titles, some of the fiction titles contain very strong language, themes involving death, coming of age (including sexual themes), peer pressure, and similar mature content. We believe the literary merit of these titles warrants their inclusion in our libraries. To ensure your students are exploring content that matches what you understand to be their social and emotional development, you may wish to review titles before introducing them to students. Please note that substitute titles are not available. Please note: These classroom Libraries are not available for sale or distribution outside of the U.S. For more information, download the Classroom Libraries catalog. Included in this catalog are the titles in the Reading & Writing Project's new series of Classroom Libraries.
