Descubre el clima de estos destinos populares en Estados Unidos. Pensilvania, a state known for its rich American history and natural beauty, experiences a varied climate that changes significantly with the seasons. From the snowy, cold winters to the warm, humid summers, the state offers a wide range of weather conditions throughout the year. Its diverse geography, from the Appalachian Mountains running through its middle to its large cities and rural areas, plays a significant role in these climatic differences. Pensilvanian- Climate and Weather Pensilvanias climate is classified as humid continental, characterized by large seasonal temperature differences with warm to hot (and often humid) summers and cold winters. The state sees a significant amount of precipitation year-round, contributing to its lush landscapes. Winters can bring heavy snowfall, especially in the northern and western parts of the state, influenced by the Great Lakes and Appalachian Mountains. Summer, on the other hand, sees higher temperatures and humidity levels, with occasional heatwaves. The transitional seasons of spring and fall are generally the most pleasant, offering mild weather, although they can also be unpredictable with sudden temperature changes. Temperatures, hours of sunshine and precipitation Across Pensilvania, average temperatures vary from cold in the winter months to warm in the summer months. January sees average temperatures ranging from -4C (about 25F) to minimum temperatures of -8C (around 18F), while July averages are around 22C (72F) with the possibility of reaching up to 27C (about 81F). The state receives a moderate amount of sunshine, with the highest average of sunshine hours in June and July at about 10-11 hours per day, decreasing to 3-4 hours in the winter months. Annual precipitation is fairly consistent, with most locations receiving between 80mm (approximately 3.15 inches) in the drier months to around 125mm (about 4.92 inches) in the wetter months, contributing to Pensilvanias overall humid climate. Pensilvanien - monthly weather Pensilvanien- The Best Time to Visit The best time to visit Pensilvania depends largely on the activities and experiences one is looking for. However, the transitional seasons of spring (April to May) and fall (September to October) generally offer the most pleasant weather. During these months, temperatures are mild, making it ideal for exploring Pensilvanias outdoor attractions and experiencing its beautiful fall foliage or spring blooms. These seasons also avoid the peak of summer heat and humidity, and the winter cold, offering a comfortable climate for tourists to enjoy the states parks, historic sites, and cities. Pensilvanien- weather by months and the climate in detail Pensilvania has two different climates and is dominated by Dfb. Mostramos el clima en Pensilvania comparando el tiempo promedio en 4 lugares representativos: Filadelfia, Pittsburgh, Erie y Scranton. Puede ver una estacin, un mes o hasta un da especfico haciendo clic en las grficas o usando el panel de navegacin. Este informe ilustra el tiempo tpico en Filadelfia, Pittsburgh, Erie y Scranton en todo el ao, que se basa en un anlisis histrico de los informes del tiempo por hora en reconstrucciones de modelos del 1 de enero de 1980 al 31 de diciembre de 2016. Pensilvanien- weather by months and the climate in detail Pensilvania has two different climates and is dominated by Dfb. Written by Anietra Hamper Updated May 3, 2023 Author Anietra Hamper is an outdoor enthusiast and has explored some of the best lakes in Pensilvania. Pensilvania has beautiful natural landscapes, from the Allegheny and Pocono mountains to the Dutch countryside, and the lakes are an important part of that memorable scenery. More than 2,500 lakes throughout Pensilvania mean the state is primed for boating, swimming, fishing, kayaking, and relaxing shoreside to take in the abundant beauty. Kinzua Lake, also known as the Allegheny Reservoir in PensilvaniaLake Erie is the largest lake in Pensilvania by size, but as part of the Great Lakes, it is not located entirely within the state. While most of the lakes in the state are man-made, there are 50 that are naturally occurring. You will find most lakes are located within the Pensilvania State Park system, which makes them easy to find, but there are a few top lakes located out of the way for those who are looking for a more primitive experience. Plan your adventures by the water with our list of the best lakes in Pensilvania. Presque Isle State Park on Lake ErieThe Lake Erie shoreline in Pensilvania looks more like an ocean beach than a freshwater basin which is why it is one of the best vacation lakes to visit in the state. The easiest access to Lake Erie is from Erie, Pensilvania on the northwest tip of the state. Relax on some of the 11 miles of sandy beaches at Presque Isle State Park and take a dip in some of the warmest waters you'll find among the five Great Lakes. The state park is a popular vacation spot for people who live in the state, so it is no wonder a visit here is one of the top things to do in Pensilvania for out-of-towners looking for the best experiences. Lake Erie has some of the best swimming opportunities, which is one of the top reasons people hit this wateryway, but you will find plenty of other water recreation availability for kayaking, fishing, boating, and canoeing. It is easy to find water sports rental locations in Erie or hire a guide for a water excursion. You can also take a sightseeing cruise to catch a great Lake Erie sunset, or hire a fishing charter to target walleye, perch, and steelhead in what is one of the top angling spots in the state. Lake WallenpaupackThe second largest inland, man-made lake in Pensilvania is Lake Wallenpaupack, located in the Pocono Mountains in northeast Pensilvania near the town of Hawley. The expansive 5,700-acre lake has 52 miles of shoreline, so there is plenty of space for boating activities or shore-based recreation. It is one of the best lake communities in the state, so there is always something festive happening, from festivals to fireworks. Lake Wallenpaupack has four boat launches around the lake, and boat rentals are available. Swimming is a popular pastime at the lake, and your best beach access is at the Palmyra Township public beach in Hawley. It is open to the public in the summer months (Memorial Day through Labor Day) and is a great beach spot for families. The beach area has restrooms, snacks available, picnic tables, and lifeguards on duty in season. Water sports and fishing are popular things to do on the lake, with several rental companies in the area. If you want to try fishing at the lake, stop by the Lake Wallenpaupack Visitors Center, where you can borrow fishing rods, reels, and a tackle box for the day through their fishing tackle loaner program. Just don't forget to buy a valid Pensilvania fishing license. You can also hike on the many trails surrounding the lake or stop into the town of Hawley for indoor activities like museums, small boutique shops, and restaurants. Raystown LakeOne of the best lakes in Pensilvania, and the largest inland lake, is Raystown Lake because with more than 8,300 acres of water, you can actually reside in a houseboat for your entire stay. Raystown Lake is in Hesston in south-central Pensilvania. The lake has 12 public access spots for boaters, swimmers, and those who just come for a picnic and the scenery. The man-made Raystown Lake has a number of public beaches and a popular campground (Susquehannock Campground). It is easy to rent a houseboat for the week, or a vacation home in nearby communities like Martinsburg and Huntingdon. The entire Raystown Lake region is known for its outdoor activities, so you will have no problem filling several days with activities like hiking, biking, and fishing at the lake. Lake HarmonyThe beautiful Lake Harmony in the Pocono Mountains is one of the pristine and cleanest natural glacial lakes in the state. The clear water coming from the mountains is one of its main draws. The lake is located near the resort community of Lake Harmony, where you will see many cottages and waterfront homes. It is a popular lake for boating and jet skiing. The fishing is prime, too, due to the natural waters, so you will see many anglers reeling in bass, trout, and perch. Lake Harmony is 2.5 miles long, and it is privately owned, but you can access it if you plan to stay in one of the vacation rentals or at Split Rock Resort. The lake has a beach for swimming and a marina and boat launch area. There are other activities nearby in the area, like Hickory Run State Park, which is popular for hiking, golf courses, the Pocono Raceway, and an indoor water park. Conneaut Lake | Photo Copyright: Crawford County Convention & Visitors BureauNorthwest Pensilvania is home to Conneaut Lake, the state's largest natural lake in the state. It is located in the town of Conneaut Lake, which is a cottage region and popular for vacation homes. The 929-acre lake is popular for vacationers who want to enjoy boating, water skiing, swimming, and fishing. It is also a nice lakefront built for those who do not want to be on the water but prefer to relax next to it. One of the big draws to Conneaut Lake is the Conneaut Lake amusement park. It is a vintage throwback to simple summer vacations reminiscent of family fun. The midway has a nice collection of preserved old-school amusement rides, including a working carousel built in 1910. The park has scaled back to limited opening times, so you will want to check before you plan to visit. The park's waterfront location on Conneaut Lake adds an extra flare and nostalgia to a vacation. There is newly expanded public beach access and a great boardwalk overlooking the water. Canadota LakeThe second-largest natural lake in Pensilvania next to Conneaut Lake is the 168-acre Canadota Lake, which is located in the northwestern part of the state in the town of the same name. Canadota Lake is known as a family-friendly lake and a popular spot for summer vacations. It is a nice lake for boating and fishing, and there are even boat rentals available. There is a popular annual ice fishing tournament in the winter. While the main draw to Canadota Lake is its spring-fed waters and the water sports activities, there is much to do in the area. From golf and miniature golf to hiking, biking, and roller skating, the region around the lake is nice, too. Cottages, cabins, and campsites are available for rent around the lake. Sunrise over Edinboro LakeEdinboro Lake in Erie County in northwestern Pensilvania is a smaller lake compared to others in the state but it is a great lake to visit, especially for fishing and swimming in a more intimate waterway. The lake is just 245 acres but has two beaches and diverse fish populations of bass, musky, crappie, and panfish, which is why anglers like it. Boating and kayaking are also common activities on Edinboro Lake. If you are looking for other activities in the area while staying at Edinboro Lake, you are just a short drive from the Erie Zoo, the Hurry Hill Farm Maple Museum, and Presque Isle State Park, where you can spend a full day swimming or hiking. To find out more about the lake, you can walk on the interpretive trails at the park that cover 12 acres. The park represents an effort to protect the state's natural resources, so there are environmental programs offered year-round at the Angola Fruit Farm, which
makes up 22 acres in the center of the lake. Nockamixon State Park. On a summer day, you will see many pontoon boats, windsurfers, people canoeing and fishing, and lots of leisure lake-goers enjoying a waterside picnic beneath one of the shady spots along the shore. Swimming is not allowed in the lake, but there is a public pool within the state park. There are five public boat ramps around the lake Nockamixon, where you can launch for the day or spend the night in designated boat anchor areas. The water releases from the dam that occurs in the spring and fall turn a stretch of the lake into one of the most thrilling whitewater experiences in the state. If you have a thirst for excitement on the rapids, you may want to plan your trip around those scheduled releases. Surrounding the lake are many miles of trails in the state park, which are great for hiking and biking. The park sits along a migratory path for waterfowl, so bird-watching is a common activity around the lake. After you spend a day at the lake be sure to drive past the nearby Knecht's Covered Bridge that has been a mainstay in the area since 1873 and is a nice place to catch the sunset. Fall colors at Kinzua LakeKinzua Lake, also known as the Allegheny Reservoir, is a top spot for water recreation and one of the most scenic destinations in the entire state. The man-made reservoir is surrounded by 513,000 acres of the Allegheny National Forest in northern Pensilvania near Warren on the border with New York. There are six boat launches around the lake and a marina for provisions and boat rentals. Popular water activities on Kinzua Lake are boating, fishing, and swimming. There are two public beaches within the park and a number of picnic areas with stunning scenic views of the forest and lake. Off the water there are recreational opportunities like hiking with 600 miles of trails available, biking, ATVing, horseback riding, bird-watching, and backwoods camping. Gouldsboro LakeThe man-made Gouldsboro Lake in northeastern Pensilvania is a nice lake for swimming and boating. The 250-acre lake also attracts anglers throughout the year, with many fishing opportunities. To find out more about the lake, you can walk on the interpretive trails at the park that cover 12 acres. The park represents an effort to protect the state's natural resources, so there are environmental programs offered year-round at the Angola Fruit Farm, which makes up 22 acres in the center of the lake. Off the water there are recreational opportunities like hiking with 600 miles of trails available, biking, ATVing, horseback riding, bird-watching, and backwoods camping.
