Perry will wrap the Australian leg of her career-spanning Lifetimes Tour in late June before picking back up in North America through July and August. She'll embark on the South America tour dates in September before heading to Europe throughout the fall and Asia to finish up in December. 2025 ABC News Photos by West Smith I walked into Climate Pledge Arena on Monday night with extremely low expectations. Ive never been a Katy Perry fansongs like I Kissed a Girl and Ur So Gay rubbed me the wrong way even as a 12-year-old girl. Between her Christian fundamentalist beginnings, out-of-touch depictions of queerness, online jabs at other pop stars (which appear to be scrubbed from the internet), and public support of conservative mayoral candidate Rick Caruso, she seemed inauthentic. In Archie Comics terms, I always considered myself to be a Betty, and Katy Perry, with her black baby bangs and Im-better-than-you attitude, is most certainly a Veronica. Despite all of this, Ill admit, last nights concert moved me. Here are four things I learned from my night at the Lifetimes tour. Perrys Fans Love Her, and She Loves Them Back While I was aware that Katy Perry has an army of fans (aka Katy Cats), I assumed they had grown up with her, that they bopped along to California Gurls as pre-teens and are now returning to her career retrospective tour to scratch that nostalgic itch. I was wrong. At least 50 percent of the audience was under the age of 16. I saw young girls enter the arena in droves, wearing tutus, shark costumes, whipped-cream bras, and blue wigs, and holding signs that said things like Its my birthday today! Hear me roar! A woman in the elevator mentioned that it was her 7-year-old daughters first concert. In the bathroom line, I overheard two tween girls with fresh blue highlights talking about how their hearts were racing in anticipation of seeing Perry. It was all so sweet and wholesome! I began to feel ashamed that I approached this concert with the same stuck-up, Veronica-esque attitude that made me dislike Katy Perry in the first place. When Perry rose up from beneath the stage to start the show, the crowd roared (heh) with excitement. This was by far the loudest concert Ive ever attended, and Ive seen My Bloody Valentine. Perry prioritized crowd work throughout her setshe grabbed a fans phone and recorded herself through an entire song, then snapped a selfie before returning it. She picked several fans out of the audience and brought them onstage. She hugged each one, admiring their outfits, and asking them, What do you want to be when you grow up? before inviting them to perform The One That Got Away with her. Then, in Willy Wonka fashion, she said. Go ahead, try some. Unfortunately, these aren't the cotton candy boots. Shes a Walking Contradiction Throughout the night, Perry thanked her fans for showing her whats real. She noted that while the internet is full of reports about her plummeting career, she sees fans packed to the very top of the arena. However, despite her assertions that the internet is a cesspool of misinformation and deception, a carousel of AI slop played on a giant screen behind her. During Womans World, her latest, controversial (and critically panned) single, AI-generated womens magazine covers morphed into each other with noticeably uncanny qualities nonsense words, blacked-out eyes, and warped limbs. There were clear nods to the absurdity of modern technology and the ridiculousness of her public image, with several references to her life being a video game, yet she perpetuated the falseness of her image more than she critiqued it. As she closed the show with Firework, I considered how that song appeals to both suburban families on Independence Day and queer people looking for inspiration to come out. I cannot decide if this merging of patriotism and queerness is harmful or advantageous. At this career-spanning Lifetimes tour, which was structured similarly to Taylor Swifts Eras tour, I learned that Perrys radio hits from my tween and teen years sounded better than ever, and I got the sense that the crowd agreed. Perry opened with hyper-pop-inspired songs from her latest release, 143, but the energy didnt fully pick up until she moved on to classics like California Gurls, Teenage Dream, Hot N Cold, Last Friday Night (T.G.I.F.), and I Kissed a Girl. Looking around, youd have thought it was 2010 with all the young girls screaming along to these 15-year-old-plus songs. I was also unexpectedly moved by her partially acoustic rendition of Pearl, a deep cut on Teenage Dream. While lyrically straightforward, the song taps into a more genuine, resonant type of feminism that anthems like Womans World lack. "She could be a Statue of Liberty / She could be a Joan of Arc / But he's scared of the light that's inside of her / So he keeps her in the dark, she coos, before belting out the chorus: Oh, she used to be a pearl / Yeah, space voyage. She had long dreamed of going to space, she said, and despite her dreams being dismissed, she feels that I could let go of any last bit of fear that I had, because I knew that was when my life would begin again, she said, tearing up. And to any other girl that has a dream, you go and do it! This drew attention to a major discrepancy in her brand regarding female empowermentshe preaches and sings about overcome in her life are deeply unrelatable. At one point, she told the audience how she had dropped her 5-year-old daughter off at summer camp that morning, adding, her father [Orlando Bloom] and I were sobbing. For a moment, I felt sad for her, but then I thought about what happened after the emotional sceneshe likely hopped onto her private jet and continued her tour. Her wealth and overall privilege make these experiences completely optional. For the majority of her fans, whether they be tween girls or members of the queer community, moments of fear are not optional, and she rarely, if ever, acknowledges that. While she doesnt owe the public details about her marriage to accused abuser Russell Brand, her identity as a bisexual woman, or her current divorce, I cant help but think being open about her true struggles (with less AI-airbrushing) would add a layer of authenticity to her image. But then again, the authenticity we expect from female pop stars is far beyond that of men in the same field. Is it my cynicism that keeps me from connecting to her music, or is it Katy Perrys inauthenticity? Is she the Veronica, or am I? Bonus Katyisms: Im a Scorpio, bitch! Is the internet real, or is this whats real? I dedicate [I Kissed A Girl] to the communitythe ones that educated me, and for all the little girls in between like myself. Love is love! Its not a gender, its a frequency, so tap into it, baby! Whats up, Amazon family? 1984-presentAmerican pop singer Katy Perry initially attempted to break into the music business with a gospel album. Her image radically changed by the time of her 2008 smash single "I Kissed a Girl," from One of the Boys, and she went on to top the charts with the follow-up albums Teenage Dream, Prism and Witness. Perry is also known for her performance during the 2015 Super Bowl halftime show, her marriage to comedian Russell Brand and her selection as a judge for American Idol. Early Life and Musical Aspirations Katy Perry was born to Ctober 25, 1984, in Santa Barbara, California. Fans might be surprised to learn that the singer who writes about sexual exploration in "I Kissed a Girl" grew up in a very conservative family. Both of her parents are pastors, and they refused to let her listen to any rock or popular music. "The only things I was allowed to listen to were the Sister Act 1 and 2 soundtracks," Perry told Entertainment Weekly. She and her two siblings were also not permitted to watch such cable channels as MTV and VH1.Perry started taking singing lessons around the age of 9 and learned to play guitar when she was 13. Around this time, she began rebelling against her strict upbringing by piercing her own nose. She soon became interested in pursuing a career in music. With her mother, Perry made several trips to Nashville to record a gospel album, Katy Hudson, which was released in 2001. "It reached literally maybe 100 people, and then the label went bankrupt," Perry explained to Entertainment Weekly. As a teenager, Perry was exposed to other musical influences. One friend introduced her to the music of Queen, which remains one of her favorite groups. "I'm very inspired by Freddie Mercury and how flamboyant and theatrical he was," she told fashion magazine WWD.In high school, she strove to be her own person, choosing not to limit herself to one social group. "I was a hop-around. I hung out with the rockabilly crew, the guys who were trying to be rappers, the funny kids," she told Seventeen magazine. Focused on her music, Perry got her GED and moved to Los Angeles to work with producer and songwriter Glen Ballard, who had collaborated with such artists as Christina Aguilera and Alanis Morissette. She was only 17 years old at the time, and being on her own proved tough. "It was five years of living in L.A. with no money, writing bad checks, selling my clothes to make rent, [and] borrowing money," she told Seventeen. Perry also experienced a string of disappointments before getting her big break. She and Ballard were unable to find a record company willing to take them on, and her 2004 collaboration with music producers-turned-performers. having three record deals fall apart, Perry finally signed with Capitol Records in 2007. Albums and Songs'One of the Boys'Following the November 2007 release of the single "Ur So Gay," which caught the attention of Madonna, Perry saw her career take off with her next effort, "I Kissed a Girl." The song hit the top of the charts in the summer of 2008, propelling Perry's album, One of the Boys, into the Billboard Top 10. A follow-up single, "Hot n Cold," also charted highly. Along with earning a Best Female Pop Vocal Performance Grammy nomination, Perry became famous for her theatricality. On the Warped Tour, she performed "I Kissed a Girl" with a giant tube of lip balm, referencing a line in the song. Perry has also jumped into a larger-than-life cake and appeared in a number of wild outfits while onstage. Describing her style as "Lucille Ball meets Bob Mackie," she told Esquire, "It's about innuendo. I want everybody to get the joke, but I want them to think about it for a minute." In 2009, Perry appeared in her own acoustic special on MTV. The soundtrack from the show, Katy Perry: MTV Unplugged, was released around the same time. Teenage Dream, to do the same. Perry's follow-up singles, "Teenage Dream," "Firework," "E.T." and "Last Friday Night (T.G.I.F.)" all followed the path of "California Gurls," making Perry just the second artist, after Michael Jackson, to have five No. 1 hits from a single album. In 2012, she released a new edition of her hit album, called Teenage Dream: The Complete Confection. The record had several new tracks, including the successful singles "Part of Me" and "Wide Awake." 'Prism'Perry continued to dominate the music charts with 2013's Prism. The album's lead single, "Roar," climbed to No. 1, and "Dark Horse," her collaboration with Juicy J, also spent several weeks in the top spot, pushing Perry past Mariah Carey for most total weeks with a No. 1 hit (46). The album's fifth and final single, "This Is How We Do," featuring Riff Raff, also performed well. Witness, in June 2017. Witness, in June 2017. Witness debuted in the top spot, giving the artist her third straight No. 1 album. Despite the announcement of the supporting Witness: The Tour, scheduled to run from September 2017 to August 2018, the album's sales dropped in the following weeks; after her previous three albums racked up a combined 17 million in sales, Witness was at a relatively modest total of 840,000 as of January 2018. The artist was back with new music by 2019, beginning with her collaboration with Zedd on "365." She then teamed with Daddy Yankee and Snow for a remix of "Con Calma," before unveiling her new solo single, "Never Really Over," in May.'American Idol. She was later joined by country star Luke Bryan and R&B and pop singer Lionel Richie, with Ryan Seacrest also agreeing to return as host. Perry had previously served as a guest judge on Idol in 2009, temporarily replacing Paula Abdul. Since then, she had turned down offers to appear on other singing competition shows, like The X Factor. The pop star immediately made waves for her behavior during the two-part premiere of season 16 in March 2018: At one point she fell while dancing on stage in high heels, and at another moment she smooched a shy contestant who said he was saving his first kiss for someone special, drawing the ire of many on social media. Perry later returned with Bryan, Richie and Seacrest for seasons 17 and 18. Super Bowl Halftime ShowOn February 1, 2015, Perry was the featured performer during the Super Bowl XLIX halftime show. Along with appearances by quest artists Lenny Kravitz and Missy Elliott, the show was remembered for the seeming mismatched choreography of two dancers in shark costumes while Perry belted out "Teenage Dream." Overall, the performance drew a reported 118.5 million viewers, making it the most-watched Super Bowl halftime show to date. The following month, Perry and her collaborators were ordered to pay \$2.78 million in compensation. However, the verdict was overturned upon appeal in March 2020, with a federal judge determining that the disputed portion of "Dark Horse" an eight-note ostinato that runs through much of the autobiographical documentary Katy Perry: Part of Me (2012), which featured behind-the-scenes footage and clips of young Perry along with her dazzling concert performances. She also voiced the character of Smurfette for The Smurfs (2011) and The Smurfs (2013) and made a cameo as herself in Zoolander 2 (2016). In 2014, Perry also launched her own music label, Metamorphosis Music, as a subsidiary of Capitol. The label changed its name to Unsub Records in 2016.After visiting Madagascar on behalf of UNICEF in April 2013, Perry became a UNICEF Goodwill Ambassador late in the year. In February 2020, she was named an ambassador of the British comedian Russell Brand. They were engaged over the New Year's holiday while on a trip to India, and on October 23, 2010, the couple married in India in a traditional Hindu ceremony. According to The Times of India, the wedding featured a procession of camels, elephants and horses, plus fire jugglers, snake charmers, dancers and musicians. Their union, however, did not last long, as Brand filed for divorce in December 2011. Perry has also been romantically linked to musicians John Mayer and Diplo, as well as actor Orlando Bloom. On February 15, 2019, she announced her engagement to Bloom with an Instagram photo that showed her flower-shaped ring. Just after midnight on March 5, Perry delivered another surprise announcement by revealing a baby bump at the end of her new video for "Never Worn White." Feud With Taylor Swift stour dancers. Perry's song "Swish Swish" is apparently about the feud. I think it's a great anthem for people to use when someone's trying to hold you down, or bully you, Perry said. "I think Swish is a liberation from all the negative that doesn't serve you. On May 8, 2018, Perry put an end to their feud by extending an olive branch with a note that said, "Ive been doing some reflecting on past miscommunication and hurt feelings between us." To meet the team, visit our About Us page: Entertainment & Pop Culture Music, Contemporary Genres Pop Music Katy Perry (born October 25, 1984, Santa Barbara, California, U.S.) is an American pop singer who gained fame for a string of anthemic and often sexually suggestive hit songs, as well as for a playfully cartoonish sense of style. Her popular singles include I Kissed a Girl, Last Friday Night (T.G.I.F.), Roar, and Rise. Katy Hudson was raised in southern California, the middle child of two itinerant born-again Christian ministers. Nonreligious music was forbidden in the Hudson household, and she grew up singing church hymns and gospel tunes. As a teenager, she learned to play the guitar and sought a musical career in Nashville with a Christian record label, but her debut album, the gospel-influenced Katy Hudson (2001), sold poorly. By then, however, Hudson had discovered through friends. She soon moved to Los Angeles to pursue success in the secular music realm, adopting her mothers maiden name, Perry, to avoid confusion with the actress Kate Hudson. Perrys initial efforts at mainstream stardom were fruitless, with two separate record labels signing and subsequently dropping her before any material was released. In 2007, however, Capitol Records put out Perrys EP Ur So Gay, which attracted modest attention for its cheerfully flippant title track. She made a greater splash several months later with the single I Kissed a Girl, an assertive ode to sexual curiosity backed by a hard-edged electro-pop beat. The song quickly stirred controversy, as some critics derided it for promoting same-sex relations and others charged that the racy scenario it depicted catered to male fantasies of female sexuality. Nevertheless, the combination of titillation and polished melodicism helped I Kissed a Girl become a number one hit in multiple countries, powering sales for her album One of the Boys (2008). With its bouncy, sharp-tongued second single, Hot N Cold, also proving popular, the albummuch of which Perry wrote herselfeventually registered sales of more than three million copies in the United States. By late 2009 Perry had become frequent tabloid fodder, largely because of her quirky, vividly colored fashionswhich borrowed variously from 1940s pinup models, burlesque performers, and the kawaii (cute) cultural aesthetic of Japanas well as her high-profile relationship with English comedian Russell Brand, to whom she was briefly married (201012). After recording the stripped-down live album MTV Unplugged (2009), Perry returned to the studio. The resulting release, Teenage Dream (2010), which provided a broader showcase for her full-throated voice, was even more commercially successful than One of the Boys, spawning such hits as the warm-weather frivolity California Gurls (featuring rapper Snoop Dogg) and the inspirational Firework. When Last Friday Night (T.G.I.F.) reached the top of the Billboard Hot 100 chart in mid-2011, Perry tied Michael Jacksons record of five number one songs from a single album. Perry maintained her grip on the mainstream with her next release, Prism (2013), which produced, among other hits, the anthemic Roar. Her 2016 single Rise was featured in television coverage of that years Olympic Games in Rio de Janeiro. Perrys fifth studio album, Witness (2017), more introspective than her earlier work, was less well received. She returned to mainstream pop with the empowerment-oriented Smile (2020). Perry later released 143(2024), which was notable for its negative reviews. While critics often disparaged Perrys songs as vapid, the music industry was generally kinder, rewarding her with several Grammy Award nominations, including album of the year for Teenage Dream. In 2011 she made her big-screen acting debut, providing the voice of Smurfette in the film The Smurfs, and she reprised the role for a 2013 sequel. She was also the subject of the judges on the new incarnation of the singing competition TV show American Idol. In April 2025 Perry was one of six passengers on an all-female commercial spaceflight on Amazon founder Jeff Bezoss Blue Origin rocket. During the 11-minute flight, Perry sang Louis Armstrongs classic What a Wonderful World to her fellow space tourists, which included journalist Gayle King and former National Aeronautics and Space Administration rocket scientist Aisha Bowe. Following her marriage (201012) to Russell Brand, Perry became engaged to actor Orlando Bloom in 2018. Two years later, they had a daughter. John M.
