Political Map of Switzerland A political map of Switzerland shows the country's borders, cities, and regions, making its political geography easy to understand. Switzerland is divided into 26 cantons, which are similar to states or provinces in other countries. Each canton has its government, laws, and constitution, giving Switzerland a unique system of federalism. Some of the most well-known cantons include Zurich, Geneva, Bern, and Lucerne. At the national level, Printable Swiss Confederation of Switzerland operates under a federal system of government with three branches: the executive, legislative, and judicial branches. The executive branch is led by the Federal Council, which is composed of seven members known as Federal Councilors. These councilors are elected by the Federal Assembly, which is the country's parliament. The Swiss people elect members of the National Council, while the cantonal governments elect members of the Council of States. The judicial branch is responsible for interpreting and applying Switzerland's laws. It includes the Federal Supreme Court, the country's highest court. Switzerland's political system is known for its stability, neutrality, and direct democracy. The Swiss people have the opportunity to participate directly in the political process through referendums and initiatives, allowing them to have a direct say in the country's laws and policies. Accept Read More Switzerland on a World MapSwitzerland is a landlocked country located in the heart of Europe. It borders 5 other countries including France to the west, Germany to the north, Austria and Liechtenstein to the east, and Italy to the south. It's known for its rugged and mountainous terrain with the Alps, which is the most extensive mountain range system spanning entirely in Europe. Even though Bern is the capital of Switzerland, Zurich, Geneva, Basel, and Lausanne are more populous. The Swiss landscape is incredibly diverse, with the towering peaks of the Alps in the south, the rolling hills of the central plateau, and the flatlands of the north. The country is also home to numerous lakes, rivers, and forests. With a population of around 8.5 million people, the official languages of Switzerland are German, French, Italian, and Romansh. Switzerland in Google Maps SATELLITE IMAGERY Switzerland occupies an area of 41,285 square kilometers (15,940 sq mi), almost identical in size to the Netherlands. It has an extensive system of lakes such as Lake Geneva, Lake Neuchatel, and Lake Constance. Next, the Alps span about 60% of Switzerland, and its snow-capped mountains are visibly picturesque in this satellite map of Switzerland. Approximately 31% of Switzerland is forested like the Po Basin mixed forest region that stretches into Italy. PHYSICAL MAP The Alps dominate the south-central region of Switzerland. But the Jura Mountains also occupy the northwest of the country. Its highest point is Dufourspitze, standing 4,634 meters high. Otherwise, Switzerland is a mix of rolling hills, plateaus, and plains. It's also known for its alpine valleys like Val d'Anniviers and Reichenbachtal. POLITICAL MAP The Swiss Confederation is a federal state made up of 26 cantons, each with its own government. The cantons are the Swiss equivalent of states or provinces, and they retain a considerable degree of autonomy. The cantons are responsible for their own internal affairs, including healthcare, education, and policing. Bern Attention! Size of some images is greater than 3, 5 or 10 MB.
