

I'm not a robot

Gmail has always had strong security as a foundation. We work hard to protect you from spam, phishing, and malware, before they reach your inbox. Our AI-enhanced spam-filtering capabilities block nearly 10 million spam emails every minute. No. While you may see ads in your no-cost Gmail account, your emails are private. Google does not scan or process Gmail content for advertising purposes. While Gmail's features are secure enough for most users, some accounts may require additional layers of safety. Google's Advanced Protection Program safeguards users with high visibility and sensitive information, who are at risk of targeted online attacks. Learn more Gmail is part of Google Workspace where you can choose from different plans. In addition to what you love about Gmail, you get a custom email address (@yourcompany.com), unlimited group email addresses, 99.9% guaranteed uptime, twice the storage of personal Gmail, zero ads, 24/7 support, Google Workspace Sync for Microsoft Outlook, and more. Learn more Browse tips and step-by-step guides made for both new users and power users.Help Center With mail.com, you can have up to 10 email addresses in a single account. This allows you to have separate email addresses for different types of correspondence. As you know, you register a new email address when you set up an email account. But you can also create up to nine additional email addresses linked to your mail.com account, called "alias addresses." Simply log in to your account and go to E-mail Settings > Alias Addresses, where you can register any available combination of name and domain name. Emails sent to your alias addresses will automatically arrive in your account inbox, and you can set any of them as your sender address. To sign up for Gmail, create a Google Account. You can use the username and password to sign in to Gmail and other Google products like YouTube, Google Play, and Google Drive. Important: Before you set up a new Gmail account, make sure to sign out of your current Gmail account. Learn how to sign out of Gmail. From your device, go to the Google Account sign in page. Click Create account. In the drop down, select if the account is for you: Personal use Child Work or business To set up your account, follow the steps on the screen. Create an account Tip: To use Gmail for your business, a Google Workspace account might be better for you than a personal Google Account. With Google Workspace, you get increased storage, professional email addresses, and additional features. Learn about Google Workspace pricing and plans. Try Google Workspace The username I want is taken You can't create a Gmail address if the username you requested is: Already being used. Very similar to an existing username. For example, if example@gmail.com already exists, you can't use example@gmail.com. The same as a username that someone used in the past and then deleted. Reserved by Google to prevent spam or abuse. Someone is impersonating me If you believe someone has created a Gmail address to try to impersonate your identity, you can: Unfortunately, Gmail is unable to participate in mediations involving third parties regarding impersonation. Learn more about Gmail Terms of Use. Related resources How do I create a new Google Account? Sign in to Gmail Post to the help community Get answers from community members /> We've developed a suite of premium Outlook features for people with advanced email and calendar needs. A Microsoft 365 subscription offers an ad-free interface, custom domains, enhanced security options, the full desktop version of Office, and 1 TB of cloud storage. Learn about premium Outlook features that come with Microsoft 365 If you've had a free email address from other providers in the past, you're probably well accustomed to a classic problem: file size limits. At GMX, we understand how irritating it is to have to use another service just to send a few pictures or music to friends and family. So our free email accounts have a generous 50 MB attachment limit. Need to send an even larger file? No problem, simply use the cloud file sharing feature that's included when you create an email account with us. GMX Cloud gives you 2 GB of free, secure storage space which you can also use to share files with your contacts. This may sound complicated, but like all features and tools provided by your GMX email, it is extremely easy and intuitive to use!
