

I'm not a robot

The PLANETWIRE is a company dedicated to the design and manufacture of wireframes and lampshades.We manufacture Wire Frames and Lampshades in long and short series as the customer's request.Our concern for quality and customer service is very important to us.Our philosophy is to satisfy the needs of our customers is why we are open to any suggestion and any product, even if is not in our catalog, please contact us. These are the criteria for PLANETWIRE:SPEED, EFFICIENCY, COMPETITIVENESS AND QUALITY. Deformed elements from steel wire of low carbon, cold drawn. Our fibers have the capacity to make a concrete reinforcement associated with the traditional materials. Wire softened through a heating treatment (annealing process), improving it workability, easily to cut and bend. For use industrial, construction, agricultural, baling, domestics. Wire with clean surface, soap / lubricant free, suitable for chrome plating, which allows the robotic welding and very easy to machine. Connecting element consists of a metal part with a sharp end, used for joining or fixing parts of an object, preferably wood. admin2022-05-10T22:27:19+00:00 ARANMA, LTD is a newly- founded company, operating in the global market since 2017. We mainly focus on the supply of all types of long steel products, flat products as well as tubes & hollow sections together with other materials. We provide a wide range of steel products, made to high quality standards and due to our strong business network we are able to provide competitive prices. Being an independent distributor and stockholder specialising in wire products, makes us not simply just a trading company. As distributors, working on exclusive and non-exclusive, in the majority of the markets, representing many mills around the globe. Acting as an entirely independent steel wire supplier and with the knowledge of working methods, market trends, data controls and laws and restrictions of many countries this gives us an enormous flexibility and competitive advantage. We work closely with our partners at every step, from order to completion of sale, we offer an after-sale service that is second to none, providing an assurance that offers our customers' peace of mind. OUR VISION To Become the top reliable and trust-worthy consultant in the steel sector, with our services and products. OUR MISSION To increase added value of the manufactured products with our professional, flexible and friendly service and to expand the diversification of sales with proper quality and competitive pricing through our extensive technical expertise of their uses and applications. Galvanized or zinc-aluminium vine yard wire, also for crops. Galvanized wire for the production of many sorts of wire hooks and wire hangers. We also supply tunnel rods of galvanized wire and galvanized spring wire. Baling wire for the pressing of, for example, old paper, cardboard, plastic, textiles, car tires and other waste materials. Diverse types of wire for, to name a few, industrial brushes, weeding brushes and cleaning brushes. Diverse types of wire for, among others, bucket handles, wire containers and wire for crates. PC Wires and PC Strands, for prestressing and post-tensioning services, wire for e.g. ceiling hooks, cavity anchors, wire nails and screws. Various types of wire for clothes hangers used in dry cleaners, hotels, shops or the consumer market. Diverse types of wire for structural or decorative items. Supply of diverse types of wire to suppliers in the car industry. Examples of end applications: suspension for car seats, wire for incorporation into headrests. Delivery on schedule and fast and kind communication. Hope to do business again.Great value for money. Plus, the items arrived fast and it saved me time. And time is money.Highly recommended. Would definitely buy again from ARANMA.
